Subject:	Ordinance Revision Work Session: Title 108, Standards, Chapter 12, Noncomplying
	Structures and Nonconforming Uses/Parcels

Summary. The County is working on expanding certain public rights of way to facilitate street improvements. The right of way expansions may cause some abutting lots that are at the minimum zoning standards to drop below adopted standards. The current Land Use Code does not provide these land owners appropriate protections from the County considering their lots "illegal." The attached ordinance revisions began as a simple addition to the *Noncomplying Structures and Nonconforming Uses/Parcels* chapter, as can be seen in the attached proposed code change as the new Section 108-12-15. However, as staff reviewed the chapter in its entirety it became apparent that other changes could help for clarity and administration. Those changes are also being presented here.

Background. The Engineering Department is currently working with the public along 3500 West and 12th Street to initiate a public right of way expansion of both roads. The expansions will take the front portions of the parcels that front these streets. The amount taken depends on a myriad of factors, such as the current right of way width, necessary road appurtenances, and proximity to intersections of streets and canals. A special ordinance is necessary that allows lots made noncompliant to current zoning standards to be considered a legal, nonconforming status. This will help clarify in the law that the current occupancy, use, and the right to initiate new uses, as may be allowed by the zone, may be continued on properties that drop below the zoning standards.

In the process of vetting language to enable this, staff found other areas of the code related to nonconforming parcels that need additional clarity. Under historic best management practices, and in model ordinances used throughout the country, the nonconforming use and noncomplying structures ordinance is intended to ensure that the right to continue existing uses and structures are vested throughout time, and are protected from zoning changes or standards changes presented by new ordinances (often referred to as "grandfathered"). However, the original intent of such an ordinance is to make the changes or modifications of nonconforming uses and structures so restrictive that future land owners are more motivated to eliminate the nonconformity and comply with new ordinance standards (achieved by reconfiguring property and/or tearing down old structures). This intent was a method of advancing the purposes of new ordinances, which were presumably enacted to better the health, safety, and welfare of the public.

In Weber County, such restrictiveness has not prevailed. Even though the framework of Chapter 108-12 *Noncomplying Structures and Nonconforming Uses/Parcels* appears to follow the framework of historic model ordinances, the chapter has been amended to be more permissive regarding the modification of noncomplying structures. It has also been amended with provisions on how to treat nonconforming lots, giving leniency to those lots created in a manner that did not comply with previous subdivision codes. Essentially, what this does is gives a grant of amnesty from subdivision requirements for these lots. The County does this for three reasons:

- 1. It some cases it is difficult to determine what laws were in effect at the time, and whether they complied with state laws of the time.
- 2. It is difficult to tell whether the County has consistently and fairly applied those laws to all people/properties.
- 3. It is politically unpalatable to penalize a successor for violations that were created by a prior owner.

These provisions are not proposed to be removed, but they are being revised to provide clarity.

Proposal. To provide for lots affected by the right of way expansion, Staff proposes the changes that can be found in the attached Exhibit A proposed code change, Section 108-12-15. Along with this new code section, a notice document has been created that will be recorded on the properties affected by right of way expansions. This notice will give current and future property owners notice of the new ordinance, and provide clarity in the record that their right to existing and new uses on the property will not be affected by the right of way expansion. This notice is provided in Exhibit B.

Regarding unplatted properties, the changes proposed in Exhibit A, under Section 108-12-11, maintain the flexibility of the current ordinance whilst also providing clarifications. One primary difference in the proposal that deviates from the historic standard of practice is the modified definition of "Lot, nonconforming." Current ordinance only lists that zoning area and zoning width standards may make a lot nonconforming. The new definition specifies that *all applicable standards* may make a lot nonconforming. The significance of this change is this: lot standards may be found in various places in the code, including the zoning ordinance and the subdivision ordinance. If a lot is legally created or modified under the standards of <u>any</u> land use code requirement at the time and <u>any</u> of those standards are later changed, then the lot is considered nonconforming as it relates to the changed standard, whatever that standard may be. The proposed definition is no longer limiting to zoning area and zoning width standards.

Because this change parts ways with historic application of this ordinance, both within Weber County and elsewhere, staff consulted with the Weber County legal team and the Office of the Property Rights Ombudsman to ensure the philosophy is keeping with the goal of maintaining a supportable and defensible code.

This new distinction is only important insomuch as nonconforming lots are treated differently from conforming lots. Staff has searched the code for all references to nonconforming lots and cannot find any reference that this change may negatively affect.

<u>Weber County Land Use Code Revision Workflow.</u> This change fits into the workflow of ordinance changes as ongoing edits, clarifications, and additions to various sections of the Land Use Code, as can be seen in Exhibit C.

<u>Planning Commission Consideration</u>. As the Planning Commission hears and considers this proposed change there are several things to be looking for:

- 1. Does the proposed change comply with the purpose and/or intent of the specific code section or relevant zone? Every change should comply with that purpose/intent OR that purpose/intent should be changed to more accurately reflect current needs and desires.
- 2. Does the proposed change comply with the goals and objectives of the General Plan? You will need to dust off those general plans and refresh your knowledge of what is in them. The General Plan should act as a guide to vet land use ordinance decisions.
- 3. Does the proposed change promote the health, safety, and welfare of the community?
- 4. Does the proposed change provide equitable balance between land use rights and the public good?

Exhibit A: Code Change – Right of Way Expansions Causing Nonconforming Lots.

The following code changes are being proposed due to several planned public right of way expansion projects that may cause some lots to lose area and drop below the minimum lot standards of the applicable zone. During routine review of related code sections, staff found the need for greater clarity throughout, and are proposing such changes here.

This change addresses the following sections:

Sec 101-1-7. Definitions:

- Lot, nonconforming
- Lot of record (lawfully created lot)
- Noncomplying structure
- Nonconforming lot or parcel
- Nonconforming sign
- Sec. 108-12-10. Legal use of nonconforming lots

229	(a) The following rules govern the treatment of unplatted lots that were created in				
230	conformance with the lot standards of the zone in effect at the time of the lots creation				
231	but not in conformance with the requirements of the subdivision code in effect at that				
232	time:				
233	(1) If the existing lot can be defined as a Lot of Record, as defined in Section 101-1-7,				
234	the lot shall be exempt from subdivision platting requirements.				
235	(2) If the existing lot was created prior to July 1, 1992, contained a single family dwelling				
236	unit, and complied with the standards of the zone in effect at the time of the lots				
237	creation, the lot shall be exempt from subdivision platting requirements, and is a				
238	nonconforming lot.				
239	(3) If the existing lot does not qualify for the provisions of subsections (a)(1) and (a)(2),				
240	then the lot shall be platted in accordance with Title 106 of this Land Use Code. Lot				
241	standards for such subdivision may be reduced to meet the minimum standards of				
242	the zone in effect at the time of the lot's creation so long as it does not create any				
243	more lots than currently exist. All such platted lots that do not conform to current				
244	zoning standards shall thereafter be considered nonconforming lots. A lot that does				
245	not meet the minimum standards of the zone in effect at the time of the lot's creation				
246	may be reconfigured upon platting to comply with such standards as long as the				
247	reconfiguration does not cause any other lot to become nonconforming or more				
248	nonconforming. A lot platted pursuant to this subsection may be further reduced in				
249	size to accommodate any right of way dedication as may be required by Title 106 of				
250	this Land Use Code. No unplatted lot or parcel governed by this subsection shall be				
251	granted a land use permit prior to subdivision platting.				
252	(b) Any lot legally platted within the bounds of a subdivision that was created pursuant to the				
253	standards of the zoning code and subdivision code in effect at the time of its creation, but				
254	no longer complies due to subsequent changes to these codes, may be amended				
255	pursuant to the minimum standards in effect at the time of its creation. The amendment				
256	shall not create any new lots. An amended plat shall be required.				
257	Where lot area and/or frontage/width requirements have increased as a result of a change in				
258	zoning, the following shall apply:				
259	(1) Parcels not meeting current zoning as to area and/or frontage/width				
260	requirements, but containing a single-family dwelling which:				

Comment [c6]: Initially I wrote this solely for lots that now no longer comply with zoning area, width, and frontage requirements of today's ordinances, however, it became apparent that such a narrow focus excludes lots that conform to today's zoning

Comment [c7]: Even if the lot complies with current zoning standards it does not comply with the current or former subdivision standards (otherwise, if it did, it would be defined as a "Lot of Record"), thus, it is nonconforming to subdivision

Notice of Effect Public Right of Way Expansion of Street Name

Legal Description

SEE EXHBIT A

RE: Potential Nonconformity on Land Due to the Expansion of the <u>Street Name</u> Right of Way, as part of <u>Project</u> <u>Number and Description</u>.

The parcel of land with the Land Serial Number <mark>#______</mark> is currently zoned <mark>ZONE</mark>______ (ZONE SYMBOL).

This notice is intended to document how the above specified right of way expansion project affects the subject property. If the property legally existed in a conforming or legal nonconforming status prior to the expansion of the public right of way, and the expansion of the public right of way has made the lot or parcel nonconforming or more nonconforming to the lot standards of the subject property's zone, the property shall be deemed <u>legal</u>, even though nonconforming. Any further development of it shall be allowed pursuant to and in compliance with Weber County Code §108-12, and other applicable local, state, and federal laws. The same consideration will be given for structures affected by the expansion of a public right of way; if the setbacks are made noncomplying or more noncomplying the structure shall be deemed <u>legal</u>, even though noncomplying.

Note: This notice does not excuse or exempt any past or future action that creates or modifies a lot, parcel, or structure in a manner that is in violation of applicable laws.
