Re: Hooper Irrigation Canal

Dear Romney:

In order to receive final approval for construction on Blue Acres Subdivision, the Board of Directors for Hooper Irrigation made a requirement that a fence be constructed around our canal located next to Blue Acres Phase 4. This was to provide safety and security for the canal and residents. Upon further review, the Board of Directors have determined that a fence would be inadequate and therefore voted to require that the canal be piped in to provide adequate security for the unobstructed flow of the canal and also safety for residents of the adjacent homes. Hooper Irrigation will be reporting the desire for this requirement to Weber County.

Hooper Irrigation is willing to give their final approval for the subdivision prior to the canal being piped in on the condition that an escrow account is set up to ensure that construction will be completed in a timely manner. Hooper Irrigation will also accept water shares on escrow, from Hooper Irrigation or Wilson Irrigation. Those shares can be released back to the owner, once the canal is piped in. The shares can also still be utilized by the owner, while in escrow. If you have questions, please contact our office at (801)985-8429, or any of our Directors.

Sincerely,

Board of Directors
Hooper Irrigation Company
