## About This Product

The Tuff Shed Tahoe Series Independence 10'x12' barn shed includes delivery and professional installation in the price. The building has 7' tall sidewalls, a 6' wide double shed door and an overall building height of 12'6". The barn style roof is complemented by the 4' deep overhead loft on the end opposite the door. Each of the 3' wide double doors are steel-reinforced, and feature three heavy-duty, patented hinges and decorative door trim. This great looking door won't twist, warp or sag! The roof system includes 7/16" OSB roof decking, baked enamel drip edge, roofing underlayment, and 3-Tab Shingles in Charcoal Black color from GAF. Inside, the floor has been upgraded with LP ¾" Treated, Interlocking Floor Decking. 16"x8" Wall Vents are positioned at the top of each end wall. Exterior wall surfaces are designed with beauty and protection in mind, with LP SmartSide siding and trim and a classic two tone, red and white barn paint scheme using Glidden Professional Paint. Like all Tuff Shed Tahoe Series buildings, the Independence includes a heavy-duty floor system that can be placed directly on virtually any firm, level surface. Other Tuff Shed Tahoe Series designs in different sizes,
