RE: Liberty Meadows subdivision 2nd Amendment of Lot 13

To Whom It May Concern:

Our office has received inquiry regarding septic and culinary water requirements for the above mentioned property. It is our understanding that the owners are requesting a plat amendment to vacate a drainage easement and relocate it to the east side of the property. Records for the existing septic system have been reviewed and area for replacement has been verified. Relocating the easement will not adversely affect either the septic system or culinary water well. We have no problem supporting this plat amendment.

If you have any further questions, please contact this office at (801)399-7160 at your convenience.

Sincerely,

Michela Gladwell, LEHS
