Dear McKenna:

We are pleased to provide this revised proposal for the roadway and wayfinding signage for **Powder Mountain**. This revised proposal reflects the dye-sublimation option chosen for the signage posts. Pricing includes, project management, site verification, engineering, shop drawings, materials, finish samples, fabrication, delivery, all applicable taxes and installation. Permits and permitting fees are currently excluded. We have assumed the following for pricing:

- All signage locations can be accessed by motor vehicle to transport installation equipment.
- All installation can occur during normal business hours.
- We have assumed two mobilizations for installation of signage.
- All logo artwork will be provided to us in a vector format that is ready for production.

To begin work we require a written notice-to-proceed followed by a purchase order or contract and a 30% deposit. Please allow a minimum of 10-12 weeks for fabrication from approval of submittals.

Please see the pricing matrix for a detailed breakdown of items. Should you have any questions, comments or concerns please do not hesitate to call. This proposal is good for 30 days.

Sincerely,

Jeff Eubinag
Project Executive
