## Submittal Checklist

- ☒ The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 40-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

**Subdivision:** The date that the applicant submits the preliminary subdivision development plat application.

**Site Plan:** The date that the applicant submits a site plan application or amended site plan.

**Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.

**Land Use Permit:** The date that the applicant submits a land use permit application.

**Other:** At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

## Applicant Narrative

Please explain your request.

Snowbasin Resort is requesting plan approval and a Weber County Stormwater Construction Activities permit to begin construction on a snowmaking storage pond. Conditional approvals have been obtained from the USFS, the State Engineer (Dam Safety Division) and Utah Department of Environmental Quality (UPDES Permit Coverage). The pond will be located within the existing resort operational boundaries on National Forest System land approximately 1500 feet west of the existing snowmaking pump station and 1300 feet southwest of the existing Needles Lodge. Total disturbance is estimated to be 4.2 acres and the reservoir will impound approximately 11.5 million gallons. The SWPPP, drawings and regulatory agency approvals have been attached to this application.

## Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.
