

Valo Refuge - Landscaping Plan

Entrance Gate - doubled in size per UDOT requirement - now 28 feet wide

Area for dumpster North of entrance gate if/when needed (not expected with anticipated occupancy)

Road from entrance gate heading South to Parking area (along berms past power pole)

Valo Refuge - Landscaping Plan

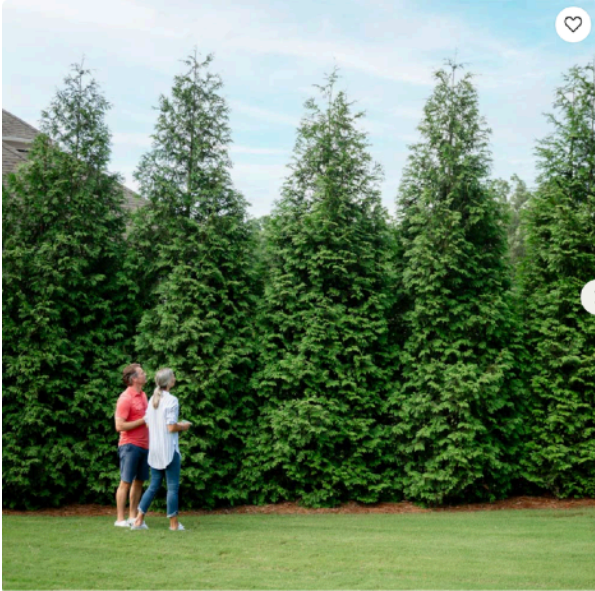

Looking North - retreat space (20x16 shipping container room) in distance

Looking South - parking along right/West edge

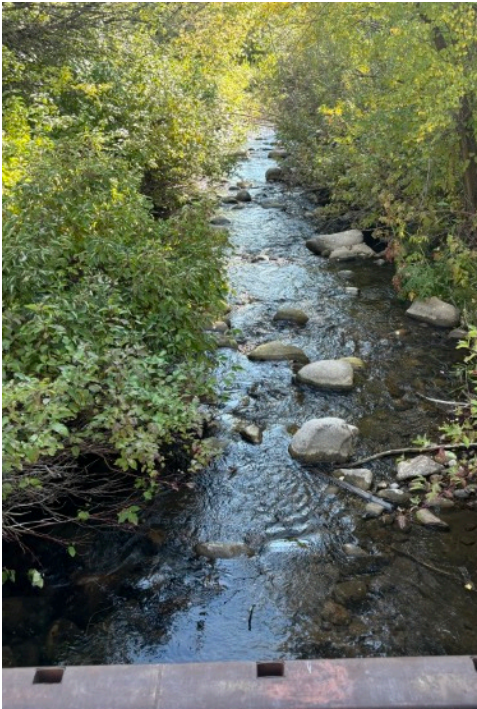

Valo Refuge - Landscaping Plan

Thuja Green Giant or ideally native Rocky Mountain Junipers to form hedges along with dirt berms for privacy. Not yet planted, targeting this fall after summer heat

Valo Refuge - Landscaping Plan

View of Beaver Creek mid summer

Updated fire pit now placed near a hydrant, surrounded by gravel and large rocks with a steel cover over a 48 inch deep rolled steel sleeve to trap oxygen when not in use and ensure all fires are “dead out”

Utah wildflower mix planned for revegetation of all grassy areas this fall (enlisting help of the Yard Farmer landscape planner), to encourage return/support of native flora after years of sod and non native heavily fertilized grass
