Report:
Geologic Hazards Evaluation
Lot 23 Big Sky Estates No. 1
2292 North Panorama Circle
Liberty, Weber County, Utah

Prepared by:
Western GeoLogic, LLC

Prepared for:
GSH Geotechnical

Report Date:
March 1, 2016

1. The geologic hazards evaluation has been completed in general agreement with professional standard of care for the specified scope of work.
2. We have not evaluated the interpretations of the site geologic conditions.
3. The report provides a qualitative assessment of geologic hazards.
4. The report recommends additional studies to address earthquake ground shaking, problem soils, and landslides and slope failures.
5. Per the recommendations of the geologic hazards report, the applicant will need to submit a report evaluating the slope stability (see pg. 14 and 15).
