		OSION, SEDIMENT AN					YES	NO
. Is the SWPPP	on site and accessible, or	is the SWPPP location poste	d in an obvious	place and reasonab	oly accessible (in a short	t time)?		X
. Are erosion cor	ntrol, sediment control, and	I good housekeeping BMP's i the current site conditions (ma	nstalled on the	site as shown in the	SWPPP?			
MPs crossed off	f site map, new BMP detail:	s & spec's in SWPPP, SWPF	P amendment	Log. etc.)?				
. Are on-site insp	pections being performed a	and recorded by a qualified pe	rson on a week	ly or biweekly basis	, reporting items require	ed by permit? (Inspector		_
Have all correct	ons, weather, problems/rep	pairs, corrective action, new B ious inspections been addres	MPs, removed	BMPs, discharges,	etc.)			
. Are SW flows e	entering and leaving the co	nstruction site controlled, mar	sed and docum	ed around the site?	e trame allotted by the	inspector?		
pgradient bounda	ary diversion, down gradier	nt boundary sediment control,	etc.)			s, bernis, siit lence,	X	
		uch as mud flows or soil depo	sits from the co	onstruction site in do	ownstream locations?			X
Is there evidence	ce of vehicles tracking soil	off the construction site?						X
is there soil, coi orm drain or wate	enstruction material, landsc er body?	aping items, or other debris p	iled on impervio	ous surfaces (roads,	, drives) that could be v	vashed with SW to a		X
. Is there a need	to repair, maintain, or imp	prove erosion control BMPs (t	emporary stabil	ization, erosion blan	nkets, mulch, vegetated	strips, rip rap, surface		
ughening, pipe s	slope drain, dust control, et	c)?						K
aw bails, curb cu	i to repair, maintain, or imp ut-back, etc?	rove sediment control BMPs	(silt fence, chec	ck dams, fiber rolls,	sediment trap/basin, in	let protection, wattles,		V
		anna annad bannadan aire	trole (clean trac	de and and annual	a construction materia	ls management,		^
. 15 u ici e a lieeu	l to repair, maintain, or imp	rove good nousekeeping con	uois (cieari uac	x out pad, sweeping	g, consulucion materia			*
er/trash control, p	I to repair, maintain, or imp port-o-potties staked down	, fueling areas, concrete was	h out area, prop	per curb ramps, spill	prevention, etc)?			X
