Regarding: Boren Family Rezone – Av3-A1
Frontier File Number ZMA2025-07

To Whom It May Concern:

It has come to the attention of the Eden Water Works Co. Board of Directors that the proposed Boren Family Rezone project states that Eden Water Company will provide culinary water to the project. There is conflicting paperwork; however, in the Project Narrative, it states, "The project will utilize individual private wells for culinary water".

We just want to let you know that Eden Water Works Co. will not be providing water to this project as it is outside our service area.

The Board of Directors has been contacted by several concerned citizens regarding this statement on the Frontier Project application. We felt it was important to inform the approving bodies for this project that Eden Water Works Co. will not be serving the culinary water to the project.

If you have any questions, please feel free to contact us at the above number.

Sincerely,

Eden Water Works Co
President, Board of Directors
