On Behalf of: Cliff Bell

October 3, 2017

To: Ronda Kippen

The West Warren and Warren Water Improvement District will supply culinary water to the Fall Widow (phase 2) Sub Division located on 7900 West in West Warren, Utah.

The main culinary water line supplying this construction was installed 12 years ago and continues to be a secure and viable conveyer of water. No new construction or addition to this line has taken place.

Following construction of this sub division, the above mentioned water district will continue to maintain this line and will also assume responsibility for the newly installed service meters from the main water line and including the meter and meter assembly. The home owner assumes responsibility for the water service from the meter to the home.

Should you have questions or comments, please contact Connie Judkins, district clerk, at the above phone number or email address.

Sincerely,

Connie S. Judkins
District Clerk
