	Estimated Project Length (mo) Previous Permit No. (if applicable)
	Estimated Start Date Actual Start Date

Submittal Checklist

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

Subdivision: The date that the applicant submits the preliminary subdivision development plat application.

Site Plan: The date that the applicant submits a site plan application or amended site plan.

Building Permit: The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.

Land Use Permit: The date that the applicant submits a land use permit application.

Other: At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

Applicant Narrative

Please explain your request.

This is for a proposed construction of approximately 600 linear feet of 4" PVC Culinary Waterline along with necessary valves, a pump with motor, and other necessary attachments at a new pumphouse. The pumphouse building will be 9' X 12' Pumphouse building. A 550 foot access drive to the pumphouse made of road base with a turnaround will also be implemented with this project.

Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.

SWPPP Checklist

This checklist needs to be filled out prior to work commencing on any construction site disturbing 1 acre or more in size, or is part of a development that is greater than 1 acre in size.

Item	Answer / Page Number
General:	
Development Name:	Sunridge HOA Booster Pump
Did owner and all "operators" sign the SWPPP?	
Did the signatures include the certification statement?	
Were the signatories authorized to sign?	
Site Description:	
Is there a site description?	YES / See SWPPP Notes / Site Plan
Nature/sequence of construction activity?	
Major Grading Activities	
Total area of site & total are to be disturbed?	
Pre/post runoff coefficient/soils description?	
Name of receiving water(s) or MS4 listed?	
Is the receiving water a tributary to waters of the U.S.?	
Is there a site map?	
Drainage patterns/outfalls on map?	
Area of soil disturbance on map?	
Location of major structural controls on map?	
Location of storm water discharges to a surface water on map?	
Location of materials or equipment storage on map (on-site or off-site)?

Controls to Reduce Pollutants	Notes:
Does the SWPPP include a description of interim and permanent stabilization practices (e.g., seeding, mulching, rip rap for the site)?	Yes / See SWPPP Notes / Site Plan
Does the SWPPP identify the contractor(s) and timing by which stabilization practices will be implemented?	↓
Does the SWPPP include a description of structural practices (e.g. off-site vehicle tracking, silt fences, sediment traps, storm drain inlet protection) for the site?	
Where the structural practice is a sediment basin that drains over 10 acres, is it adequately designed? (3,600 cu.ft/acre x total drainage acres)	
Does the SWPPP identify the contractor(s) who will implement the structural practices?	
Does the SWPPP identify storm water management measures to address storm water runoff once the construction is completed (e.g. retention ponds, velocity dissipation controls)?	
Inspections	
Are inspections completed bi-weekly and within 24 hours after a measurable weather event and/or at the required interval identified in the SWPPP?	
Are the inspection reports signed and certified by an authorized person?	
Are the inspections being performed by a qualified person and are the qualifications in the SWPPP?
