ADDITIONAL COMMENTS AND CORRECTIVE ACTIONS FOR  
SWPPP COMPLIANCE

Site Name: \_\_\_\_\_ Date of Evaluation: 6/19-23/2017 Page 2 of 2

I have however been to the 6639 E Via Clairmonte Site both in May and in June. The hillside is visibly scared from this home construction combined with sewer and storm drain construction.

Speaking with the Contractor (Conrock) who built the roadway sewer and storm drain much of the area now could be stabilized and planted. This should be done as soon as possible to stabilize this hillside before winter.

I would note there is no posted SWPPP Also note NOI form the project expired in April. They have a dumpster on the street and a porta potty on the street. Recent rain storms had a lot of track out on the street.

I haven't gone down to see the slope containment just looked at such in the distance. Some steep slope down to the bottom floor of the house.
