SWPPP, eROSION, SEDIMENT AND HOUSEKEEPING BMP's INFORMATION Is the SWPPP on site and accessible, or is the SWPPP location posted in an obvious place and reasonably accessible (in a short time)? Are a residion control, sediment control, and good housekeeping BMPs insalled on the site as shown in the SWPPPP. Has the SWPPP been updated to reflect the current alte conditions (modifications dated & initiated on site map, new BMPs on site map, discontinued by the scossed of site map, new BMPs are performed and recorded by a qualified person on a weekly or bloweshy basis, reporting items required by permit? (inspector make equilification, weight by permit of the site as shown in the swperper.) Are on-site inspections being performed and recorded by a qualified person on a weekly or bloweshy basis, reporting items required by permit? (inspector are equired by permit? (inspector and exclusified site condition, new BMPs, remoded BMPs, dichingtes, etc.) Have all corrective action items from previous inspections been addressed and documented within the time frame allotted by the inspector? Are SW flower entering and leaving the constructions is enconstruction site constructions and constructions are constructed in sections of ordinary sediment control, etc.) Is there a veldence of vehicles tracking soil off the construction site? Is there a veldence of vehicles tracking soil off the construction site? Is there a veldence of vehicles tracking soil off the construction site? Is there a veldence of vehicles tracking and off the construction site? Is there a veldence of vehicles tracking soil off the construction site? Is there a veldence of vehicles tracking and off the construction site? Is there a veldence of vehicles tracking soil off the construction developed site and the vehicles of the site of the vehicles of the site of the vehicles and the vehicles of the vehicles and the vehicles of the vehicl		spector Code (circle): (S) State	3 - State		
Is the SWPPP on site and accessible, or is the SWPPP location posted in an obvious place and reasonably accessable (in a short time)? Are evision control, sediment control, and good houseleeping BMPs installed on the site as shown in the SWPPPP? Has the SWPPP been updated to reflect the current site conditions (modifications dated à initialed on site map, new BMPs on site map, discontinued MPs a costed did the map, new BMP details & ageed in SWPPP. SWPPP amondment Log, etc.)? Are on-site inspections being performed and recorded by a qualified person on a weekly or biovesity basis, reporting items required by permit? (Inspector make equalifications, which is presented as the property of the site of the	SWPPP, E	ROSION, SEDIMENT AND HOUSEKEEPING BMP'S INFORMATION	YE	NO	T
Has the SWPPP been updated to reflect the current site conditions (modifications dated & Initiated on site map, new BMPs on site map, discontinued MPs crossed of site map, new BMPs details & specif in SWPPP SWPPP Bummer(modifications). Are on-site inspections being performed and recorded by a qualified person on a weekly of biweskly basis, reporting items required by permit? (inspector make equalifications, weather, problemar/geaits, corrective collon, new BMPs, removed BMPs, discharges, etc.). Have all corrective action items from previous inspections been addressed and documented within the time frame allotted by the inspector? Are SW Move retenting and leaving the construction site controlled, managed or divisited around the site? (e.g. perimeter controls, berns, silt fence, by a strength boundary diversion, down gradient boundary sediment control, etc.) Is there evidence of vehicles tracking soil off the construction site or soil deposits from the construction site or diversions of sediment discharge such as mut down a roll deposits from the construction site of which are sediment controls, berns, silt fence, by the sediment controls, berns, silt fence, by the sediment controls, berns, silt fence, by the sediment controls, and the sediment controls of the construction site or sediment controls, berns, silt fence, or sediment controls, sediment sedim				-	+
M/s a costaed of site map, new BMP details & spec's in SWPPP, SWPPP amendment (oz, et.)? Are on-file inspection being performed and recorded by a qualified prison on a weekly or biweekly basis, reporting items required by permit? (inspector med Squalifications, weather, problema/repairs, corrective action, new BMPs, removed BMPs, discharges, etc.) Have all corrective, problema/repairs, corrective action, new BMPs, removed BMPs, discharges, etc.) Far SW flows entering and leaving the construction site controlled, managed, or diversed around the site? (e.g. perimeter controls, berms, silt fence, progradent boundary self-dischouring varieties to broad self-dischouring varieties to broad self-dischouring varieties to construction site in downstream locations? Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations? Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations? Is there soll, construction material, landscaping items, or other debris piled on impenvious surfaces (roads, drives) that could be washed with SW to a branch data or soil, construction material, landscaping items, or other debris piled on impenvious surfaces (roads, drives) that could be washed with SW to a branch data or repair, maintain, or improve good housekeeping control of the search of the properties of the propert	Are erosion control, sediment control, a Has the SWPPP been undated to reflect	nd good housekeeping BMP's installed on the site as shown in the SWPPP?			
ame Aquilitations, weather, problems/repairs, corrective action, new BMPs, removed 6MPs, discharges, etc.) Have all corrective action items from previous inspections been addressed and documented within the time frame allotted by the inspector? Are SW flows entering and leaving the construction alte controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, silt fence, progradent boundary adjected by the inspection? Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations? Is there evidence of sediment discharge such as mud flows or soil deposits from the construction material, landscaping learns, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a purposition of verification material, landscaping learns, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a purposition of verification in verification materials, landscaping learns, or other debris piled on impervious surfaces (roads, drives) that could be washed with SW to a purposition of verification of verification materials, indicated with SW to a purposition, experiment of the proposition of the proposition of the proposition of the proposition and the control of the proposition of the	BMPs crossed off site map, new BMP deta	ails & spec's in SWPPP, SWPPP amendment Log, etc. \?			
Have all corrective action items from previous inspections been addressed and documented within the time frame alloted by the inspector? Are SW flows entering and leaving the construction site controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, sit fence, pradent boundary diversion, down gradient boundary sediment control, etc.) Is there evidence of vehicles tracking soil off the construction site? Is there evidence of vehicles tracking soil off the construction site? Is there evidence of vehicles tracking soil off the construction site? Is there evidence of vehicles tracking soil off the construction site? Is there evidence of vehicles tracking soil off the construction site? Is there are only construction material, indiscaping items, or other debris piled on impervious surfaces (reads, drives) that could be washed with SW to a mrind rain or water body? Is there a need to repair, maintain, or improve genoment control BMPs (leitporary stabilization, erosion blankets, much, vegetated strips, for pap, surface updating, piles slowed or fair, dust control, etc)? Is there a need to repair, maintain, or improve sediment control BMPs (slit fence, check dams, fiber rolls, sediment traphasin, intel protection, wattles, awabis, cut not-roll-poteles staked down, fueling areas, concrete wash out area, proper cuth ramps, spill prevention, etc)? Is there a need to repair, maintain, or improve good housekeeping control (sea track out pag, sweeping, construction materials amangement, and the protection of the state of the 21 days without stabilization? (except show or frozen ground)? Are there flatured areas that have not had construction activities for 14 to 21 days without stabilization? (except show or frozen ground)? Are there flatured areas that have not had construction activities for 14 to 21 days without stabilization? (except show or frozen ground)? Are there flatured areas that have not had construction activities for 14 to 21 days without stabilization? (except show or fro	 Are on-site inspections being performed 	and recorded by a qualified person on a weekly or biweekly basis, reporting items required by permit? (Inspector	+	+
Are SW flows entering and leaving the construction alte controlled, managed, or diverted around the site? (e.g. perimeter controls, berms, silt fence, gradient boundary additient control, so designed to bundary sediment control, etc.) Is there evidence of sediment discharge such as mud flows or soil deposits from the construction site in downstream locations?
