CONTAINING 396880 SQUARE FEET OR 9.111 ACRES

Should this be reflected in the Owners Dedication?

There is a 100ft. setback from the high water mark of the South Fork River

On the current plat there is a 15ft. PUE and Access Easement. Is this easement going to be reduced or part of it removed?

Is this still a 10ft. PUE each side?

Is this still a 10ft. PUE and Access Easement?

-Flood Plain needs to be shown on the plat.  
-Existing structures need to be shown, within or immediately adjacent to the subdivision.  
-In the original plat there are non-buildable areas shown. Why are they removed? What are the average slopes of the lots? In the original subdivision the buildable areas were required due to the slopes.  
-There are geological units Zkc and Qms on lot 2. These units are concerning, the Developer will need to understand this for any future development on the lot.

Isn't there a home that is in this area? The Contours are different than the ones that were originally submitted when the original subdivision was submitted.

Is this the developer?
