Hi Ronda,
Did you ever hear back about the forest service granting is access for a driveway off the dead end?

Thanks
Clay

Hi Clay,

I have not heard anything else since the email below that said that the access area is not owned by the National Forest. I sounds like they don't issue permits so I would just make sure you submit this email chain with your application for the record.

Let me know if you need anything else.

Have a great day!

Subject: [CAUTION ATTACHMENT-LINK]FW: Property line and right of way question

Hi Ronda, Please see the attached map. Portions of this road are forest(the beginning 310'), but the entire road is maintained by the state. The area that Mr. Christensen wants to access his property is not on National Forest. Because this road is open to the general public year round we don't issue road use permits for access.

Anne,

Thank you for looking into this. It looks pretty clear cut from your boundary lines... I have copied Ronda Kippen at the county. She has been working with on this. If you could touch base with her so the county and the FS are on the same page, that would be great!

Her contact info is this:

Hi Clay, I'm attaching our map of that area. You can see that the access point to your property is completely off of forest. The only portion of Forest on that road seems to be at the beginning for about 300' and then of course where the road ends. Our road engineer said that portion (first 300') is listed as a forest road but is maintained by the state. Do you want to have the person at the county call me? Or I can call them. This is not something we would issue a road use permit for. I can send someone at the county an email explaining that if you can get me an email address.

Anne,

Here is a screen shot of the access we would like to obtain. The county said a letter explaining that we are granted residential access and that the road will not be closed, will do fine.

The only other thoughts I would have would be about preparing that specific location for the access. It looks like between the pavement and the proverty line there is dirt. So, could be be given permission at some point to prep that dirt or even pave that dirt?

I also attached a image of the subdivision lots as well.

Thanks for your help.

Hi Anne and Charley! Mr. Clay Christensen wishes to make contact with the UWC regarding access and authorization. He is copied in this email.

Mr. Christensen, Please contact Anne Hansen or Charley Rosier. Both work for the Supervisor's Office in managing special use authorizations, including requests for access. Anne works part of her time out of the Ogden Office and part of the time in the Supervisor's Office. But I only have her Supervisor Office number: 801-999-2158. Charley's number is: 801-999-2158

Hope this helps put everyone in contact.

Melissa,

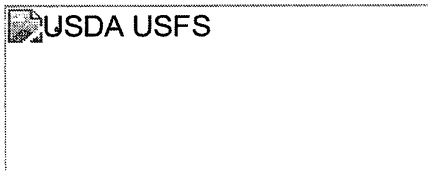

Clay Christiansen needs to know who to contact for special use permits on the UWC, Ogden District.

Can you please let him know who he can contact? You indicated that they split their time between Ogden and SLC.

Mr. Christiansen lives in Ogden, so I am sure he would like to meet with Forest Staff here in Ogden.

Thanks!

Clay,

I got you message. One thing that would be extremely helpful would be if you can send me a map of the area you are interested in.

Also if you have a legal description of the land, that would be helpful.

http://apps.fs.fed.us/fsmapviewer/index.html?config=public-config/ALP_StatusAndEncumbrance.xml

You can use the public map viewer to help you with the questions above.

This is a land status viewer for Forest Service lands and is a good place to start.

Thanks!

Subject: Property line and right of way question

Belle,

I have a few questions about property lines and public access to a road in the Ogden Valley.

Is there a number that I can contact you with or possibly a time we could sit down and discuss my questions?

Best regards,
Clay C.
