- very nice day - cool mornings (30s) and warm afternoons (80s) -
- colors in the trees changing seems early - pineview is very low.
- honey bucket was serviced this morning
- New machine on the site - Timber Works crane -
- Accessory bldg getting roof trim on
- Rain predicted for next week - site looks as prepared as can be. It is very dry - if too much rain comes after such a dry summer, things could be dicey.
