**Submittal Checklist**

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

**Subdivision:** The date that the applicant submits the preliminary subdivision development plat application.  
**Site Plan:** The date that the applicant submits a site plan application or amended site plan.  
**Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.  
**Land Use Permit:** The date that the applicant submits a land use permit application.  
**Other:** At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

**Applicant Narrative**

Please explain your request.

**Single Family Dwelling**

**Authorization**

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.

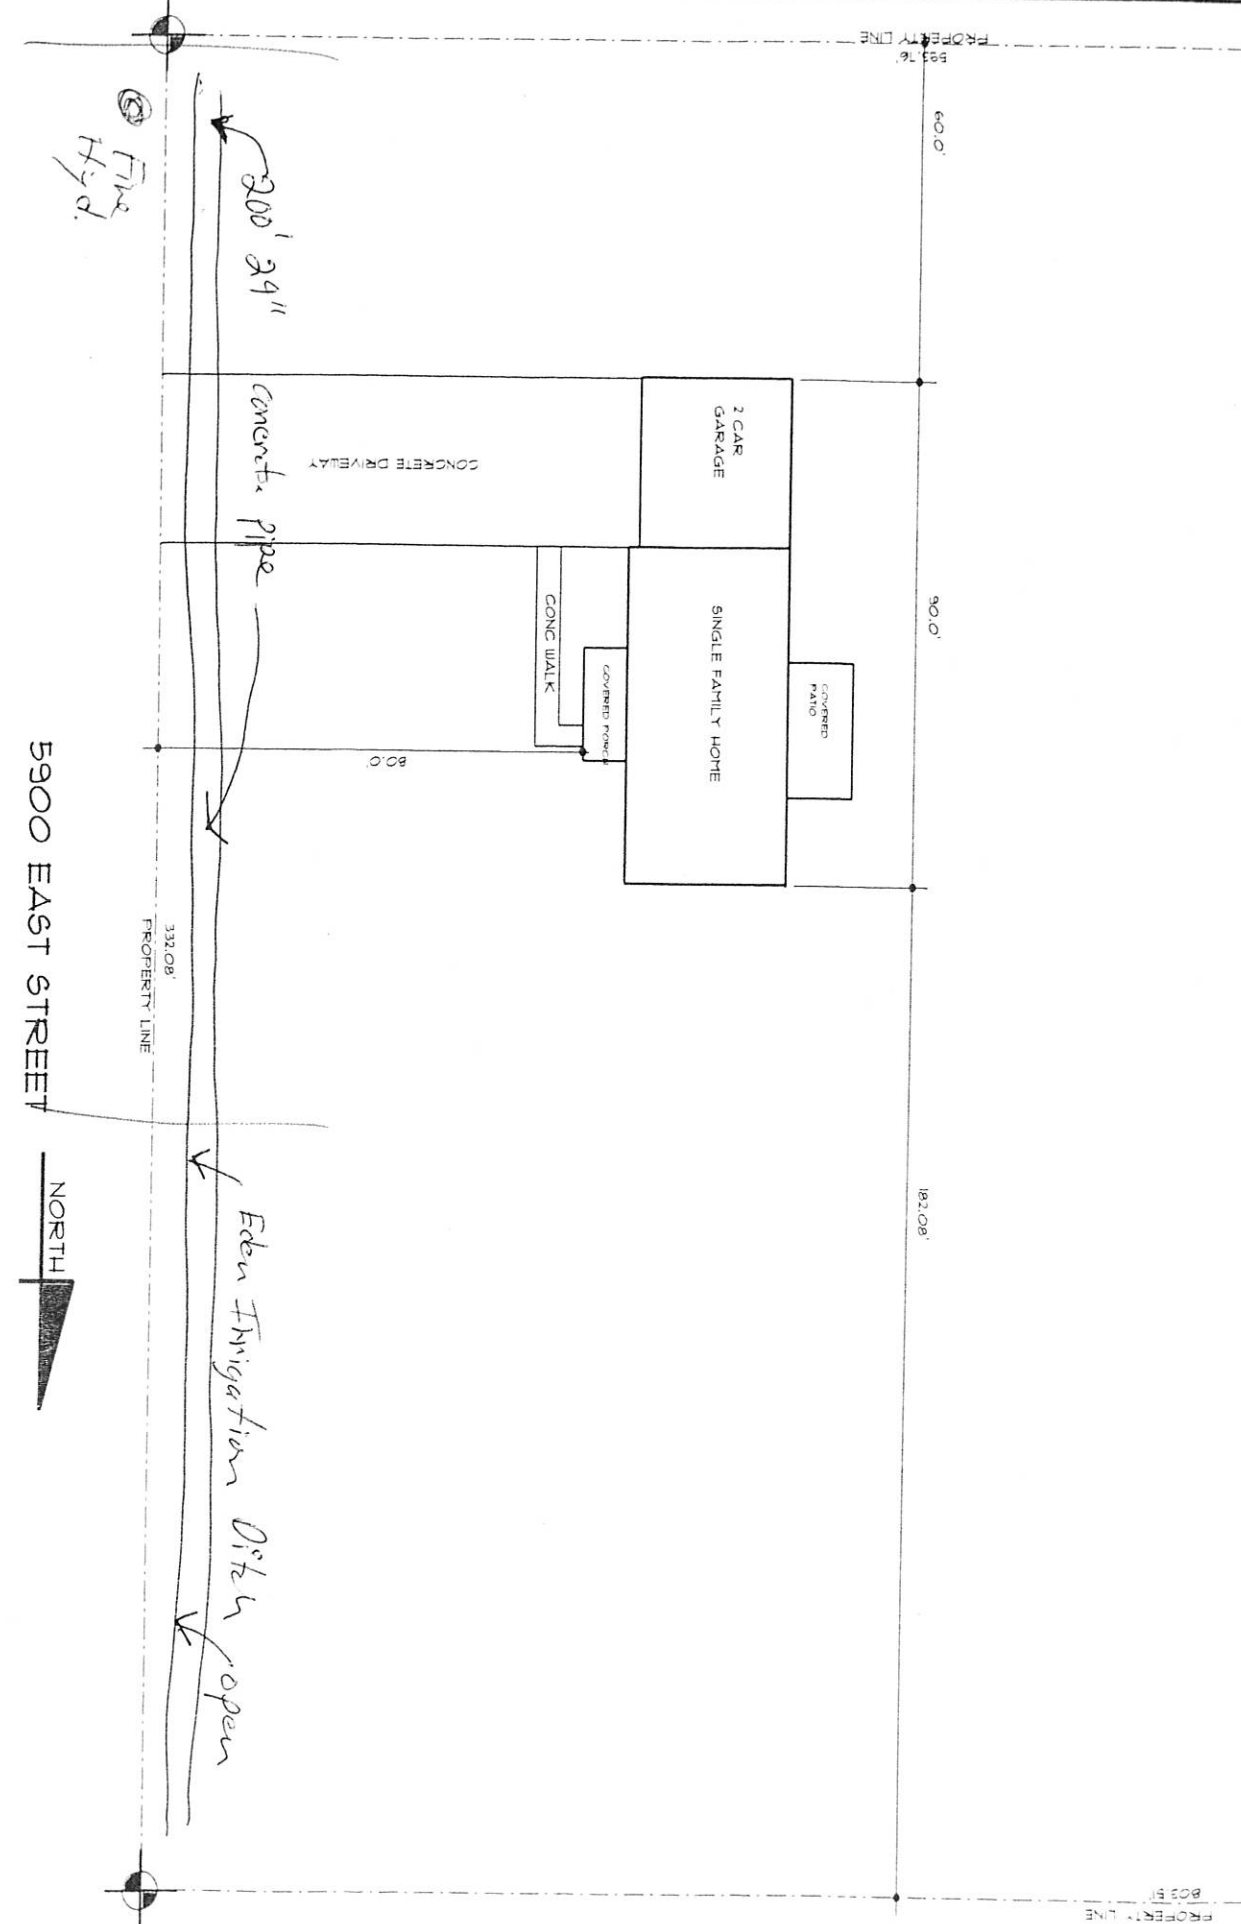

Owner or Authorized Representative Signature <b>Rodney J. Herrick</b>	Date <b>4/19/2017</b>
