Subject: Story Farm Subdivision response to review
To: bfrandsen@co.weber.ut.us

To Weber Co Engineering,

In response to your recent review and per phone conversation on Monday July 17 2017.

1. The plat has been updated and sent electronically to Felix showing the location of the septic system on lot 1. The other document changes on the plat have also been addressed.
2. and 3. There is an existing home on lot 2 and no plan for any new construction in the immediate future so these comments do not currently apply.
