The overhang would start just below the eaves at about 9'4" and then, as I understand it, drop about 3 inches/ft out the 8' width so end at about 7' 4". Does that make sense?

Ulla,

What will the height of the carport be?

Thanks,
Steve

Thank you again for your help today negotiating the Land Use Permit process.
Attached are three documents. Please let me know if you need any additional information from us.

Thanks,
Ulla Kauffman

Subject: Land use permit

Hello,

Attached is the land use permit application. Structures that are 200 square feet in size or larger require building permits.
Let me know if you have any questions.

Regards,

Steve Burton
