Subject: **Plan Submittal Waiver**, Terakee Village PRUD Subdivision Water Line; Taylor West Weber Water District, System #29019, File #10985

Dear Mr. Surrage:

The Division of Drinking Water (the Division) received a Project Notification Form from your office for the Terakee Village PRUD Subdivision water line project with a request for a Plan Submittal Waiver in accordance with *R309-500-6(3)(b)* of the Utah Administrative Code on October 3, 2017. The Division also received a hydraulic modeling analysis certification and a certification stating that Plan Submittal Waiver conditions will be met prior to placing the new water lines in service for this project, both dated October 2, 2017 and signed by Dan White, P.E.

Our understanding of the project is that approximately 4,760 linear feet of 10-inch and 2,475 linear feet of 8-inch C-900 DR14 PVC water line with bell and spigot joint, approximately eleven (11) fire hydrants, and associated valves will be constructed at 900 South and 4600 West. This project will add 80 new service connections to the water system, including 79 residential lots and 1 assisted living center (4 ERC's) for a total of 83 ERC's.

Your water system has formally designated Dan White, P.E., as the Professional Engineer having direct responsibility for the entire water system in your letter to the Division dated August 23, 2012; and Dan White, P.E., as the Professional Engineer responsible for oversight of the hydraulic analysis for the entire water system in your letter to the Division dated August 23, 2012. The construction of the proposed water line project shall conform to the construction standards previously approved by the Division on September 10, 2012. The pipeline size is within the limits of Rule *R309-500-6(3)(b)(ii)* based on the population of 7,626 this water system currently serves. On this basis, **a Plan Submittal Waiver is hereby granted for the Terakee Village PRUD Subdivision water line project**. Please note that approvals or permits by the local authority or county may be necessary before beginning construction of this project.

Upon receiving this Plan Submittal Waiver, you may proceed with construction of the Terakee Village PRUD Subdivision water line project. Upon completion of construction and the Plan Submittal Waiver conditions certified by Dan White, P.E., you may place the new water lines in service. You are not required to obtain an Operating Permit for this project.

If you have any questions regarding this letter, please contact Camron Harry, of this office, at (801) 536-0087, or Ying-Ying Macauley, Engineering Section Manager, of this office, at (801) 536-4188.

Sincerely,

Marie E. Owens, P.E.
Director
