4. A capacity assessment from the local culinary provider will be required to be submitted with the final submittal application and a construct permit from the State of Utah Department of Environmental Quality Division of Drinking Water must be submitted to Weber County Planning Division prior to forwarding the for final subdivision approval by the County Commission.
5. A cost estimate for the improvements and a draft copy of the agricultural plan and open space preservation plan must be submitted for review prior to the final subdivision being forwarded to the Western Weber Planning Commission and the Weber County Commission.

This recommendation is based on the following findings:

1. The proposed subdivision conforms to the Western Weber General Plan.
2. With the recommended conditions, the proposed subdivision complies with applicable County ordinances.
3. The applicant during the CUP for the PRUD was granted an overall bonus density of 32 percent for the entire project for an overall density of 84 dwelling units.
