			Estimated Start Date 2-21-18.	Actual Start Date

Submittal Checklist

- ☒ The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

Subdivision: The date that the applicant submits the preliminary subdivision development plat application.

Site Plan: The date that the applicant submits a site plan application or amended site plan.

Building Permit: The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.

Land Use Permit: The date that the applicant submits a land use permit application.

Other: At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

Applicant Narrative

Please explain your request.

Storm Water Protection Permit to Remodel a Single Family Dwelling.

- SWPPP NOTES:**
1. Silt fence to protect stockpile and perimeter.
 2. Initial protection (SILT BAGS) to protect catch basin.
 3. Rock entrance will be 6" deep & about 20' long with filter fabric under liner.
 4. Site will be inspected weekly and after each 1/2" rain event. BMPs will be cleaned/ repaired as needed and street swept within 24 hours by hand if tracking occurs.
 5. A washout pit will be provided for concrete/other waste by digging a small hole with 12" berm and lining with plastic. The yard will be sodded within 14 days of final construction/grading. To be done prior to winter, no temporary stabilization needed.
 7. Temporary BMPs will be installed prior to disturbing any soil & removed after sod. Garbage will be picked-up as needed and spills cleaned-up.
