NARRATIVE

The purpose of the survey is to meet the subdivision requirements of the county so that this parcel can retain building rights. This is because a portion of this subdivision was sold to the Dutton Subdivision so the Hesselgesser-Hatton Subdivision has been modified and is now being replatted so that the plats will reflect the deeding change. The basis of bearing of bearing is as described in the boundary description. A survey was conducted of the existing subdivisions being affected and the monuments found in that work are noted hereon. The center line of Old Snowbasin Road has been surveyed by the Weber County Surveyor's office and the location of that work has been retraced to establish the location of the road right of way. For additional information see the Dutton Subdivision 1st Amendment plat.
