		Estimated Start Date <i>6/5/18</i>	Actual Start Date <i>ASAP</i>

Submittal Checklist

The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in Section 33-3-4 of the county ordinances.

The applicant shall file the application on or before the following dates:

- Subdivision:** The date that the applicant submits the preliminary subdivision development plat application.
- Site Plan:** The date that the applicant submits a site plan application or amended site plan.
- Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.
- Land Use Permit:** The date that the applicant submits a land use permit application.
- Other:** At least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounds for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Construction Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the county engineer.

Applicant Narrative

Please explain your request.

There is no storm drain in the vicinity of the property. Flat property, All storm water will stay on agricultural property.

Authorization

By signing below the Owner / Representative authorizes the county to enter the property to perform inspections.

Owner or Authorized Representative Signature <i>Michelle Pascoe</i>	Date <i>6/1/18</i>
Signature of Approval <i>[Signature]</i>	Date <i>6-5-18</i>

Stormwater Pollution Prevention Plan
Bingham- SFD

1. How much area will be disturbed?

2558 Square feet. (shown on house plan, and some driveway.)

2. Who will be responsible for the conditions of the site during construction?

E. Parslow Construction and Kaleb Bingham, Phone- 801-528-2337

3. What will be done to prevent the neighborhood from being affected by the proposed construction activities?

We will maintain the road, also obey all noise ordinance laws and make sure the site is marked with no trespassing signs.

4. What will be done with all excavated material temporarily and permanently?

It will be used for the final grade around the proposed construction.

5. Where is the concrete washout and how will it be maintained?

It will be adjacent to the proposed driveway, contained in a plastic pool. It will be maintained and kept neat and clean then properly disposed of.

6. Where are the port a johns located and how are they installed?

One will be provided.

7. How will the construction entrance be built and where will it be located?

It will be located where the driveway is placed on the site plan. It will be built using traditional construction equipment and also maintained and graded nicely.

8. What will you do when mud and/or dirt gets tracked on the asphalt?

We plan to have a power washer handy to clean up any mud that tracks into the roads or asphalt.

9. Is there a drainage ditch or swale on or near your property? How will it be protected?

There is a swale west of the property on the adjacent lot. However it is far enough away where it could not be affected by the construction.

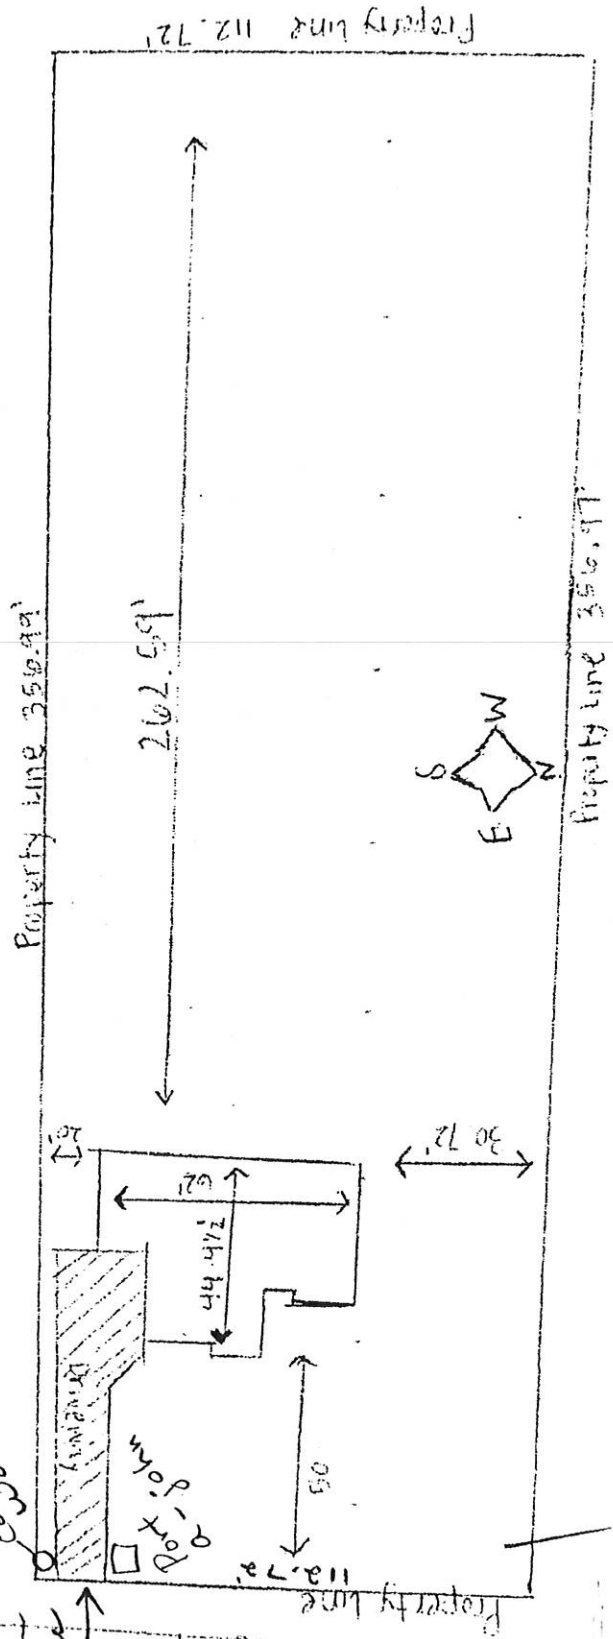

10. What is currently done to the rain/storm water when it reaches this project site?

It is absorbed into the ground. There is a ditch adjacent to the road however our property is piped and already protected from run off.

11. Show all existing occupation on the property.

There are no existing occupation on the property to show.
