Applicable Ordinances

- Title 101, Chapter 1 (General Provisions) Section 7 (Definitions)
- Title 108, Chapter 4 (Conditional Use Permit, amendment)
- Title 104, Chapter 15 (Forest Valley Zone, Conditional Uses)

Summary and Background

The Church of Jesus Christ of Latter Day Saints has submitted a proposal that includes installation of a new restroom & shower facility (102 square feet), just off of North Fork Road.

Analysis

General Plan: Weber County will continue to pursue recreational development opportunities with existing and future recreation resorts in the Ogden Valley planning area, while advocating for the diversification of recreational and cultural opportunities, including camping facilities (2.1.1, pg. 45, Ogden Valley General Plan).

Zoning: The subject property is located within the FV-3 Zone. The purpose and intent of this zone is as follows:

“The purpose of the Forest Valley Zone, FV-3 is to provide area for residential development in a forest setting at a low density, as well as to protect as much as possible the naturalistic environment of the development.”

Under LUC 104-14-3 (15) Ski resorts, including summer skateboard activities as an accessory use are allowed as conditional uses in the FV-3 zone.

Development Standards: The following site development standards per the requirements in the FV-3 Zone:

- (1) Lot area and lot width: 3 acres (LUC §104-14-5).
- (2) Front yard setback: 30’.
- (3) Side yard setback: 20’.
- (4) Rear yard setback: 10’.

This proposal meets all of the site development standards stated in §104-14-5 (FV-3 Zone). The drawings show the project area well within standards.

Conditional Use Review: The existing ski resort is allowed as a conditional use within the FV-3 Zone.

Public Safety and Health: The applicant is currently working with the County Engineer, with a county SWPPP.

Tax Clearance: The 2017 taxes are paid in full. The 2018 taxes are not due until November 30, 2018.

Staff Recommendation

The Planning Division recommends approval of de minimus changes to the ski resort facility, specifically extending the existing infrastructure for snow making, located at approximately 3567 Nordic Valley Rd. This recommendation for approval is subject to all review agency requirements.

This recommendation is based on the following findings:

1. The existing use conforms to the Ogden Valley General Plan.
2. The existing use will not cause harm to the natural surroundings.
3. The existing use, if conditions are imposed, will comply with applicable County ordinances.
4. The existing use, if conditions are imposed, will not deteriorate the environment of the general area so as to negatively impact surrounding properties and uses.

Date of Administrative Approval: 11/20/18

Rick Grover

Basis for Issuance of Conditional Use Permit

That the proposed use of the particular location is necessary or desirable to provide a service or facility which will contribute to the general well being of the community:

Nordic Valley is an existing ski area, extending snowmaking capabilities to the top of the mountain will enhance the skiing snowboarder experience

That such use will not, under the circumstances of the particular case and the conditions imposed, be detrimental to the health, safety and general welfare of persons nor injurious to property or improvements in the community, but will be compatible with and complimentary to the existing surrounding uses, buildings and structures when considering traffic generation, parking, building design and location, landscaping and signs:

That the proposed use will not lead to the deterioration of the environment or ecology of the general area, nor will produce conditions or emit pollutants of such a type or of such a quantity so as to detrimentally effect, to any appreciable degree, public and private properties including the operation of existing uses thereon, in the immediate vicinity of the community or area as a whole:

Property Owner Affidavit

I (We), _____, depose and say that I (we) am (are) the owner(s) of the property identified in this application and that the statements herein contained, the information provided in the attached plans and other exhibits are in all respects true and correct to the best of my (our) knowledge

(Property Owner)

(Property Owner)

Subscribed and sworn to me this _____ day of _____, 20 _____

Extension of Nordic Valley's Snowmaking Pipe to Top Of Mountain

Nordic Valley has a snowmaking system in place for several years, at least since the 1980's. The current Snowmaking system only covers the bottom portion of The Mountain. It is our proposal to extend snowmaking capabilities to the top of the mountain. This requires connecting to the existing pipe at the Mid Way point and excavating a four foot deep, 1500 foot long trench which a 4 inch High Density Poly Pipe SDR 7 will be installed. The existing pump at the bottom of the Mountain is capable of creating enough head to accomplish this ie: 1158 TDH, Vertical Turbine Sulzer Pump. There will be three hydrants that can be accessed by a portable fan gun along the pipe line, one at the top, two evenly spaced midway and one at the bottom of the slope.

Please see site plan.
