

## Storm Water Plan for M&M Storage Addition

1. New area construction is 5460 for building and 7280 for drive way including half gravel and half concrete.
2. Owner is responsible party.
3. There should be no affect on neighbors.
4. All excavated material will be on site.
5. Concrete wash out is near construction.
6. Toilet facilities is available at guard station..
7. There are no drainage ditches nearby.
8. No dirt will leave the property.
9. Entrance to Highway 89 is asphalt and concrete.  
Drainage from property above us enters into our existing system .
