Re: *Engineering Review*

Below please find our response to your posted comments dated 11-27-2018. Please note that our numbering reference system corresponds to your comment numbering system.

1. N/A
2. Contours are shown on the plan in 1 ft. intervals
3. No percolation holes were completed due to existing sewer lines
4. Shown on the plan
5. Revised
6. Noted
7. Noted
8. Noted
9. Will Serve letter has been provided by developer to Weber County
10. Profile views will be provided with the final design submittal
11. SWPPP will be provided with the final design submittal
12. Noted

Attached file comments

- Road is public and has been labeled on the plan
- Sewer easement has been added to the plan
- The existing basin will be piped and discharge into existing system
- Storm drain calculations have been updated to include the .2cfs requirement. The developer has reviewed the basin requirements with the Engineering Department and due to the regional basin, no on-site detention will be required.

We appreciate your review and trust we have changed and/or clarified all of your comments.

Sincerely,
REEVE & ASSOCIATES, INC.
