COMMENTS AND CORRECTIVE ACTIONS FOR SWPPP COMPLIANCE

Identify the problem and its location. If appropriate, describe (in general terms) what needs to be completed. However, only if qualified (e.g., you are a designer) should you be mandating specific BMPs to install. Include the date when corrections are made.

No Swppp on site

BMPs silt fence down in many areas. Repair needed.

Also note: we are getting close to the winter time. It may be time to start thinking about how the site is going to be stabilized.
