

# Hillside Development Review

Hillside reviews are conducted by the Hillside Review Board whose membership consists of technical experts in planning, health, engineering, and building construction. The Hillside Development Review Board balances development on hillsides, while being sensitive to the environment.

Hillside development review is required for land use permit and building permit applications for all parcels, subdivision lots, roads and accesses, where the natural terrain has average slopes at or exceeding twenty-five percent.

Hillside development review is required for the preliminary subdivision reviews that contain areas where the slope is at or exceeding twenty-five percent. The Planning Director and the County Engineer on a case-by-case basis may waive this requirement.

A pre-application meeting is required prior to application submittal; please call (801) 399-8791 to make an appointment. Date of pre-application review meeting: \_\_\_\_\_ Time: \_\_\_\_\_

- **Staff member assigned to process application:** \_\_\_\_\_

**APPLICATION DEADLINE:** The Hillside Review Board meets as needed. Meetings will be scheduled once the application is deemed complete by the Planning Division staff.

## Application Submittal Checklist

The Planning Division will only accept complete applications with supporting documents as outlined below. Submitting an application does not guarantee that your application will be placed on the next Hillside Review agenda.

The following is required as part of the application form submittal:

- Complete Application Form
- A non-refundable fee made payable to Weber County (see *Fee Schedule*)
- Obtain signature of the owner(s) on the application and any authorized representatives
- Plans and applications of the proposed development(s) and any relevant information regarding building and excavation of the site shall include, but not be limited to the following as per Section 108-14:
  1. Detailed engineering plans and profiles for retaining wall, cuts, filling and/or excavating of land
  2. Site plan with contours. Contour intervals are to be determined by the County Engineer
  3. Cross sections of improvements
  4. Retaining wall designs with engineers stamp (if applicable)
  5. Geotechnical report is required for an individual lot within an approved subdivision. New subdivisions with slope issues will require Geotechnical reports for each lot and segments of the road with slope issues. An outside third party review of the Geotechnical report will be required if deemed necessary by the County Engineer. All costs associated with the review will be the applicant's responsibility
  6. Other studies and/or information deemed necessary by the members of the board
  7. Utah Pollution Discharge Elimination System (UPDES) Permit with Storm Water Pollution Prevention Plan (SWPPP) shall be required at the time of application. Erosion control landscaping on cuts, fills and other locations, considered necessary by the Review Board

8. A Landscape plan as per Zoning Ordinance Sub Section 108-14-10.

- All documents submitted in the application shall be accompanied by a PDF file of the respective document. All plans (including but not limited to site plans, architectural elevations/renderings, etc), and subsequent submittals and revisions, shall be accompanied by a full scale set of PDF files of the respective plans.

**Purpose and Intent of Hillside Development Standards**

When areas are subdivided or developed on sensitive areas, such features as special soil and geologic conditions, steep terrain, highly combustible native vegetation, and other conditions may pose serious potential consequences, such as increased fire, flood or erosion hazards, traffic circulation problems, sewage disposal problems, property damage from extensive soils slippage and subsidence, and adverse effects from destruction of natural scenic beauty and unsightly developments. Protection to life and property can be achieved when special consideration is given to hillside areas where one or more such conditions exist.

**Fee Schedule**

Property Zoning \_\_\_\_\_ Fee Required \_\_\_\_\_ Receipt No. \_\_\_\_\_

- Hillside Review

Planning Fee: \$425 + \$50 per lot  
Engineering Fee: \$175 + 50 per lot  
**Total : \$600 + 100 per lot**
- Review of the Geotechnical Report by an outside third party firm

The applicant is responsible for 100% of the cost of the outside third party review
- Appeal of the decision to the Board of Adjustment

\$500.00
- Appeal of the Decision to the Board of Adjustment with a Hillside Review Board panel of qualified experts to serve as advisory to the appeal authority for purposes of determining the technical aspects of the appeal (as per Zoning Ordinance Sub Section 36B-9)

Cost of the 3rd party appeal:  
1/2 of the cost of the panel and the County published appeal fee

**Appeal Process**

An appeal of the Hillside Development Review Board’s decision:

1. The applicant, a board or officer of the county, or any person adversely affected by the Hillside Development Review Board’s decision administering or interpreting hillside development review procedures and standards ordinance may, within the time period provided by ordinance, appeal that decision to the appeal authority by alleging that there is error in any order, requirement, decision, or determination made by the Hillside Development Review Board in the administration or interpretation of the hillside development review procedures and standards ordinance.

2. An applicant who has appealed a decision of the land use authority administering or interpreting the county's geologic hazard ordinance may request the county to assemble a panel of qualified experts to serve as the appeal authority for purposes of determining the technical aspects of the appeal.
3. If an applicant makes a request under Subsection 108-14-11(a) the county shall assemble the panel described in Subsection 108-14-11(b) consisting of, unless otherwise agreed by the applicant and county:
  - A. One expert designated by the county;
  - B. One expert designed by the applicant; and
  - C. One expert chosen jointly by the county's designated expert and the applicant's designated expert from a pre-approved list that the Engineering Division has assembled.
4. A member of the panel assembled by the county may not be associated with the application that is the subject of the appeal.

#### For Your Information

Changes to an approved Hillside Development application may require a revision to your application.

This application can be filled out online at the following Planning Division web site: [www.co.weber.ut.us/planning](http://www.co.weber.ut.us/planning). Copies of the applicable Weber County Zoning Ordinances and other helpful information are also available at this web site.

## Property Information

Project Name Aadland Ogden Valley	Current Zoning F5
Approximate Address 1088 N. Maple St. Huntsville, UT 84317	Land Serial Number(s) 210820002

Subdivision Name / Lot Number(s) Lot 107
---

Project Narrative <p>The Aadland Residence is a relatively small single family home planned for lot 107 in the Green Hill Country Estates Development in Phase 6.</p> <p>The lot has steep grades hence the hillside review requirement. The home has been designed specifically for the grades with an earth sheltered garage on one side and a walkout lower level on the other to mitigate some of the change in grade that does occur across the footprint of the home.</p> <p>Additional retaining and the driveway access both have been designed by Reeve and Associates Engineers. Survey staking and topographical information has been obtained through Utah Land Surveying and the geotechnical work has been done with Christensen Geotechnical. The architectural plans for the home were designed by Habitations Residential Design Group with the structural engineering being done by York Engineering. The structural engineer is aware of, has reviewed and designed the structural integrity of this home based on the information provided to them by the geotechnical and civil engineers.</p>
