Applicant Narrative

Please explain your request.

We are seeking a variance to the lot frontage and area requirements. We are trying to sell this property and no lender will lend on the property due to the nonconforming requirements. This property was illegally subdivided in 1989 and has had several owners and mortgages since then. We have also spoken to the owner of the land that surrounds our property and he will not consider selling the needed land to conform to the zoning requirements.

We would like to do a one-lot subdivision to take care of this problem once and for all. If the subdivision cannot be granted we would like the county to issue a conditional use permit, or a letter allowing subsequent owners to obtain a rebuild permit in the event of fire, etc.

Variance Request

Explain how the variance will not substantially affect the comprehensive plan of zoning in the County and that adherence to the strict letter of the ordinance will cause unreasonable hardships, the imposition of which upon the petitioner is unnecessary in order to carry out the general purpose of the plan.

We do not believe that the board's approval of the proposed variance will significantly affect the county's master plan because it has not been a problem in the last 24 years. To the community, this lot already appears to have the blessing of the county. I believe that the A-2 zoning was put in place by the county to give preference to farming and other agricultural activities, by making this a legally-zoned subdivision, no farming or agricultural use will be restricted.

If no variance is granted, the community stands to lose a beautiful home and a well-maintained property that has been a blessing to the community for the last 105 years. We are requesting the variance so that we can sell the home to someone who will show pride in home homeownership and continue to care for the property, rather than have the property rented to someone who may not show the same level of pride and care.

Variance Request (continued...)

List the special circumstances attached to the property covered by the application which do not generally apply to the other property in the same zone.
This property already has a single-family home on it and does not meet the lot size or frontage requirements. Other properties in the zone do not already have homes on them.

Based upon the previously stated special circumstances, clearly describe how the property covered by this application is deprived of privileges possessed by other properties in the same zone; and that the granting of the variance is essential to the enjoyment of a substantial property right possessed by other properties in the same zone.

The other properties in the zone are able to be bought and sold freely. If this parcel was granted the variance it could also be bought and sold freely and would be a part of the community for years to come.

Other properties in this zone are able to be purchased and sold. Or rebuilt as needed due to a fire or other natural disaster.

Variance Request (continued...)

Explain how the previously listed special circumstances are not considered to be economic or self-imposed hardships.

This is not a self-imposed hardship, because I was not the person that illegally subdivided the lot.

Duties and Powers of the Board of Adjustment

In addition to any other powers given by State law or the Weber County Zoning Ordinance Chapter 29, Board of Adjustment, upon the timely filing of an appeal, within 15 days, from the date of the final decision being appealed, after proper notice and Public Hearing, the Board of Adjustment shall have the following powers:

1. To hear and decide appeals where it is alleged by the appellant that there is error in any order, requirement, decision, or refusal made in the enforcement of this Ordinance.
2. To hear and decide requests for decisions on special questions upon which such Board is authorized to pass.
3. To authorize upon appeal in specific cases such variance from the terms of this Ordinance as will not be contrary to the public interest, where, owing to special conditions a literal enforcement of the provisions of this Ordinance will result in unnecessary hardship; provided, that the spirit of this Ordinance shall be preserved and substantial justice done.
4. To interpret the zoning map and zoning ordinance.
5. To reduce the amount of off-street parking required, where acquisition of land for such use would cause exceptional hardship.
6. Where a zone boundary line divides a lot in single ownership at the time of the passage of this Ordinance, permit the extension of a use or building situation on the portion of such lot which lies in the less restricted zone into the more restricted zone, provided that such extension shall be subject to all regulations of the less restricted zone and shall extend not more than one hundred (100) feet into the other portion of the lot in the more restricted zone.
7. Permit for a period not to exceed one (1) year in a residential zone a temporary building or use of a commercial or industrial nature which building or use is incidental and necessary to the construction of the residential development.
8. To permit a nonconforming use to be changed to another use permitted in the same or a more restricted zone than the one in which the nonconforming use would be a permitted use; and which, in the opinion of the Board of Adjustment either by general rule or on decision in a specific case, will be out of harmony or incongruous with existing and prospective uses in the neighborhood to a less degree than is the nonconforming use that it replaces, with respect to noise, odor, atmospheric emission or pollutant, or physical hazard, and to no greater degree with respect to traffic related to the proposed use, display or use of illumination, general activity, probable duration of the proposed use, or other factors having a bearing on the harmonious relation to one use to another.
9. To permit the relocation on a lot of a nonconforming building or structures occupied by a nonconforming use, provided the building or structure shall comply with all the height, yard, and area requirements in the zone in which it is located.
- 10A. To permit as a special exception and subject to No. 12 below, the construction of a dwelling or a building upon a lot, which does not have frontage on a street but has access to said lot by a private right-of-way, where the Board of Adjustment considers it unfeasible or impractical to extend a street to provide access to such lot because of unusual topographic or property boundary conditions. Before approval by the Board of Adjustment to build on any private right-of-way, the landowner of record shall place a covenant to run with the land agreeing to participate in the cost of developing any future road required by the county to replace the private right-of-way as required access to additional lots.
- 10B. To permit Lots with Access Strips known as Flag Lots by Special Exceptions meeting the following criteria:

1. Lots not having frontage on a street as required by this ordinance, but having access to such street by means of fee title access strips may be approved as "Special Exceptions" by the Board of Adjustment in any zone, provided that:
 - A. The Board of Adjustment determines that it is not feasible or desirable to extend a street to serve such lot or lots at that time. Criteria to be used in determining feasibility or desirability of a street shall include, but not be limited to, topography, boundaries, and/or an area in which a road would not open an area of 5 acres or more for development.
 - B. The access strip shall have a minimum width of 20 ft., a maximum width of 30 ft., a maximum grade of 15%, and a minimum vertical clearance of 14.5 ft.
 - C. The area of the access strip shall not be included within the minimum lot area requirement.
 - D. The lot shall meet all minimum yard and area requirements of the zone in which it is located, exclusive of the access strip.
 - E. Buildings shall be setback a minimum of 30 feet from any property line and 30 feet from the extension of the flag lot access strip. The depth of the front yard shall be the distance between the front line of the building and the property line or nearest line of the access strip, which the building faces.
 - F. The lot address shall be displayed in a prominently visible location at the street entrance to the access strip.
 - G. Each lot shall access a street by means of its own access strip. Successive stacking of lots on the same access strip is not permitted.
 - H. No building, structure or parking is allowed in the access strip, which is to be used solely as access to the lot.
 - I. The Board of Adjustment shall impose such other conditions to ensure safety accessibility, privacy, etc. to maintain or improve the general welfare of the immediate area.
 - J. No access strip shall exceed 800 feet in length.
 - K. A maximum of two flag lot access strips may be adjacent to each other.
 - L. A minimum turnout measuring at least 10 feet by 30 feet be provided adjacent to the traveled surfaces of the access strip at a maximum distance of 200 feet from the public street.
 - M. A turn-around area be provided at the home location to allow firefighting equipment to turn around. This area shall be a year round surface, capable of supporting fire equipment (a minimum inside turning radius of 30 feet and an outside turning radius of not less than 45 feet.)
 - N. Bridges, including decking and culverts shall be capable of supporting a minimum 20-ton weight capacity.
 - O. Switchback turns in sloped areas shall have a minimum 75-foot radius.
 - P. Road surfaces on private access ways shall have a minimum 12-foot finished road surface capable of supporting a 20-ton weight capacity with a surface approved by the County Engineer.
 - Q. A fire hydrant or other suppression method MAY be required by the Fire Chief.
 - R. The home location shall be shown on a plan submitted to the Fire District.
2. No flag lot shall be allowed which proposes to re-subdivide or include within it (including the access strip) any portion of an existing lot in a recorded subdivision.
3. The lot area exclusive of the access strip shall be a minimum of 3 acres.
4. The flag lot shall meet the minimum lot width requirements for the zone in which the lot is located, at the end of the access strip.

5. Application for subdivision shall be filed and recorded within 18 months of approval of Flag Lot. If not filed and recorded within 18 months, said Flag Lot approval shall expire and be null and void.
6. No subdivision shall be vacated, re-subdivided or changed in order to meet the requirements of this chapter.
11. To allow by Special Exception access to lots at a location other than across the front lot line provided the following criteria are met:
 1. Special circumstances are attached to the property covered by the application, which does not generally apply to other property in the same zone.
 2. Special or unique boundary conditions exist regarding the property for which an application has been submitted.
 3. Topographic or other physical conditions exist which would cause an undesirable or dangerous condition to be created for property access.
 4. The Board of Adjustment shall consider but not be limited to the following:
 1. The access strip shall have a maximum grade of 15%.
 2. A minimum turnout measuring at least 10 feet by 30 feet be provided adjacent to the traveled surfaces of the access at a maximum distance of 400 feet from the public street.
 3. A turnout area be provided at the home location to allow firefighting equipment to turn around. This area must be a year round surface capable of supporting fire equipment (a minimum 45 foot radius if circular).
 4. Bridges including decking and culverts must be capable of supporting a minimum 20-ton weight capacity.
 5. Switchback turns in sloped areas must have a minimum 75 foot radius.
 6. Road surfaces on private access ways shall have a minimum 12 foot road surface width and be capable of supporting a 20,000 pound weight capacity with a surface approved by the County Engineer.
 7. A fire hydrant or other fire suppression method may be required by the fire district.
 8. The home location shall be shown on a plan submitted to the fire district.

Process

1. Before making its decision, the Board shall hold a hearing upon the appeal. Notice of the time and place of such hearing shall be sent by mail to the appellant, to the owners of all property contiguous to the property with which the appeal is concerned. Such notice shall contain the name of the appellant, the time and place fixed for the hearing, and a brief statement of the error alleged by the appellant or of the special exception or other question or variance for which the appellant appeals.
2. The hearing may be adjourned from time to time, and if the time and place of the adjourned meeting be publicly announced at the hearing at the time of the adjournment, no further notice of such adjourned meeting shall be required.

3. Each appeal, filed in proper form shall be placed upon the calendar of the Board and shall be heard in the order in which they appear on the calendar, unless advanced for hearing by order of the Board for good cause shown. The calendar of cases to be heard shall be posted in five days before the meeting at which the hearing is scheduled.

4. A Letter or Decision or any other action of the Board shall be sent to the applicant informing him/her that the minutes of such meeting are available at the Planning Commission Office upon the Board's approval of the minutes. The minutes shall contain findings as the basis for the Board's decision or action and the vote of each member of the Board, those absent being so marked.

Review Criteria

In exercising the above-mentioned powers, such Board may, in conformity with the provisions of the law, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from and may make such determination as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken; provided, that before any variance may be granted it shall be shown that:

1. The variance will not substantially affect the comprehensive plan of zoning in the County and that adherence to the strict letter of the ordinance will cause unreasonable hardships, the imposition of which upon the petitioner is unnecessary in order to carry out the general purpose of the plan.

2. Special circumstances attached to the property covered by the application, which do not generally apply to the other property in the same zone.

3. That because of said special circumstances, property covered by application is deprived of privileges possessed by other property in the same zone; and that the granting of the variance is essential to the enjoyment of a substantial property right possessed by other property in the same zone.

4. That the condition and/or circumstances are not considered economic or self-imposed hardships.
