NOI

Notice of Intent (NOI) for Storm Water Discharges Associated with Construction Activity Under the UPDES General Permit No. UTRC00000 or No. UTRH00000 SEE REVERSE FOR INSTRUCTIONS

Submission of this Notice of Intent constitutes notice that the party(s) identified in Section I of this form intends to be authorized by UPDES General Permit No. UTR000000 issued for storm water discharges associated with construction activity in the State of Utah. Becoming a permittee obligates such discharger to comply with the terms and conditions of the permit. ALL NECESSARY INFORMATION MUST BE PROVIDED ON THIS FORM.

PERMIT PERIOD	Permit Start Date: 10/30/2019 Permit Expiration Date: 10/30/2020
PERMIT TYPE	Construction General Permit (CGP, this permit covers any construction project): <input type="checkbox"/> Common Plan Permit (this only covers single lot residential construction disturbing less than an acre): <input checked="" type="checkbox"/>
Is this NOI seeking continuation for previously expired permit coverage at the same site? Y <input type="checkbox"/> N <input checked="" type="checkbox"/>	If yes, what is the number of the previous permit coverage? Permit No. UTR _____

I. OWNER INFORMATION

Owner Name: Blake Kingsbury **Phone:** 904-710-8011
Address: 3009 Manor Rd. **Status of Owner:** PRIVATE
City: Charlotte **State:** NC **Zip:** 28209
Contact Person: Pamela Russell **Phone:** 435-513-0355

GENERAL CONTRACTOR: SCANDINAVIAN, LLC **Phone:** 435-513-0355
Address: 6410 N. Business Park Loop Rd. Unit E **Status of General Contractor:** PRIVATE
City: Park City **State:** UT **Zip:** 84098
Contact Person: Pamela Russell **Phone:** 435-513-0355

II. FACILITY SITE / LOCATION INFORMATION

Name: LOT 86R Kingsbury **Is the facility located in Indian Country?**
Project No. (if any): _____ Y N

Address: 8549 E. Spring Park **County:** WEBER
City: Eden **State:** UT **Zip:** 84310
Latitude: 41.3623 **Longitude:** -111.7451
Method (check one): USGS Topo Map, Scale _____ EPA Web site GPS Other GEOTECHNICAL REPORT

III. SITE INFORMATION

Municipal Separate Storm Sewer System (MS4) Operator Name: Weber County
Receiving Water Body: _____ **this is known** **this is a guess** ([see http://wq.deq.utah.gov/](http://wq.deq.utah.gov/))
Estimate of distance to the nearest water body? 5 miles **ft.** **miles.**
Is the receiving water an impaired or high quality water body (see <http://wq.deq.utah.gov/>)? Yes No
List the Number of any other UPDES permits at the site: 0

IV. THIS SECTION IS ONLY FOR PROJECTS INVOLVED IN DEVELOPMENT OF A SUBDIVISION.
List the lots proposed for the development (please add another sheet of paper if there is not enough room to list all lots).

LOT 86R

INSTRUCTIONS

Notice Of Intent (NOI) For Permit Coverage Under the UPDES General Construction Permit (CGP) or Common Plan Permit

Who Must File A Notice Of Intent (NOI) Form State law at UAC R317-8-3.9 prohibits point source discharges of storm water from construction activities to a water body(ies) of the State without a Utah Pollutant Discharge Elimination System (UPDES) permit. The owner and the general contractor of a construction activity that has such a storm water discharge must submit a NOI to obtain coverage under the UPDES Storm

Water General Permit. If you have questions about whether you need a permit under the UPDES Storm Water program, or if you need information as to whether a particular program is administered by EPA or a state agency, contact the storm water coordinator at (801) 536-4300.

General Construction Permit (CGP) or Common Plan Permit There are two permits to choose from to cover construction activity. The CGP covers any and all construction activity. The Common Plan Permit covers less than an acre projects that are residential. You must determine which permit applies and check the appropriate box at the top of the first page.

Where To File NOI Form The preferred method of submitting an NOI is electronically on-line at <https://secure.utah.gov/stormwater>. If the-line option is not available for you, you can submit a paper form (downloaded the NOI form from <https://deq.utah.gov/Permits/water/updes/stormwatercon.htm>) to the following address:

**Department of Environmental Quality
Division of Water Quality
P.O. Box 144870
Salt Lake City, UT 84114-4870**

Beginning of Coverage Permit coverages are issued immediately after submitting an NOI with the permit fee. The permittee should be aware that though you may not have a permit in hand, if you have submitted a completed NOI with the permit fee you are covered by the conditions in the permit and will be expected to comply with permit conditions. You can print a copy of the CGP or Common Plan Permit from the DWQ web site (the second web page noted above).

Permit Fees. The permit fee is \$150.00 per year. The fee is paid on-line by VISA/MASTERCARD/echeck. Permit coverage will not be issued until the fee is paid.

Length of Coverage: Permit coverage starts the day that the NOI and fee is received at DWQ and expires a year from issuance. All permit coverages must be renewed within 60-days after the yearly expiration date, or be terminated with a notice of termination (NOT) before the expiration date. To terminate the permit the site must meet the permit conditions for final stabilization (see permit definitions), or must continue under a different permit holder. In most cases the DWQ or municipality of jurisdiction will perform a final inspection when the permittee submits a NOT. If the site passes the final inspection the permit is terminated.

The Storm Water General Permit for Construction Activities UTRC00000 will expire on June 30, 2019 – UTRH00000 expires on September 30, 2020. The Clean Water Act requires that all UPDES permits be renewed every 5 years. If a permit coverage extends beyond the expiration date of the permit, permit coverage must be renewed to continue coverage under the renewed permit that will subsequently be developed to continue the same or similar permit for construction activity.

SECTION I - FACILITY OPERATOR INFORMATION Supply the legal name(s) of the person(s), firm(s), public organization(s), or any other entity(ies) that qualifies as the owner of the project (see permit definitions). Do the same for the general contractor that conducts construction operations at the permitted site. The owner and the general contractor of the project may be the same.

Enter the complete address and telephone number of the owner and general contractor and a contact person and number for each. Enter the appropriate letter to indicate the legal **STATUS of the OWNER/GENERAL CONTRACTOR** of the project. **F = Federal M = Public (other than Fed or State) S = State P = Private**

SECTION II - FACILITY/SITE LOCATION INFORMATION Enter the project name or legal name and project number (if any) of the site and complete street address, including city, state and ZIP code. The latitude and longitude of the facility must be included to the approximate centroid of the site, and the method of how the Lat/Long was obtained.

If the facility is located in Indian Country, do not complete this NOI, instead submit an application for coverage under a storm water permit to EPA Region VIII except for facilities on the Navajo Reservation or on the Goshute Reservation which should submit an application to EPA Region IX.

SECTION III - SITE ACTIVITY INFORMATION If the storm water discharges to a municipal separate storm sewer system (MS4), enter the name of the operator of the MS4 (e.g., the name of the City or County of jurisdiction) and

the receiving water of the discharge from the MS4 if it is known (if it is not known look up the closest water body at <http://wq.deq.utah.gov>).

For Impaired Waters: Go to <http://wq.deq.utah.gov> and identify and click on the water body that will receive the storm water discharge from the permitted site, on the map provided at the web site (zoom in for easier resolution). On the left hand side of the page you will see “**20XX Assessment**” depending on the year you refer to the web site (the assessment is done every 3 years). The **20XX Assessment** will indicate if the water is impaired. If there is nothing after **20XX Assessment** or the narrative after does not include the word “impaired”, your receiving water is not impaired.

For High Quality Waters: On the web page referred to in the paragraph above on the left hand side of the page you will see “**Anti-Degradation Category**”. Under **Anti-Degradation Category** you will see the category of the water body. Only categories 1 and 2 are high quality water bodies. Some waters may be both categories 1 and 3. If your water body is both category 1 and 3 it means the headwaters of your water body is within Forest Service boundaries, and because it is within Forest Service boundaries it is category 1. If your project is within Forest Service boundaries then your water body is category 1 and it is “high quality”. If your project is not within Forest Service boundaries then your water body is category 3 and is not “high quality”.

SECTION IV – LISTING LOTS FOR SUBDIVISIONS For the sake of tracking lots that are sold (if a developer chooses to sell lots to another party before the building construction for the lot is completed), and permitted under a different owner (which requires a different permit), developers must list lot numbers.

SECTION V - TYPE OF CONSTRUCTION Check each type of construction that applies to this application.

SECTION VI - BEST MANAGEMENT PRACTICES Check each type of best management practice that will be used to control storm water runoff at the job site.

SECTION VII – GOOD HOUSEKEEPING PRACTICES Check each type of good housekeeping practice that you will use on the site.

SECTION VIII – ADDITIONAL Provide an estimate of the total number of acres for the site and the acres for which soil will be disturbed (to the nearest hundredth of an acre). An email address is required of the best contact associated with the project for the communication needs.

SECTION IX – CERTIFICATION State statutes provide for severe penalties for submitting false information on this application form. State regulations require this application to be signed as follows:

For a corporation: by a responsible corporate officer, which means: (i) president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions, or (ii) the manager of one or more manufacturing, production, or operating facilities employing more than 250 persons or having gross annual sales or expenditures exceeding \$25 million (in second quarter 1980 dollars), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures;

For a partnership or sole proprietorship: by a general partner or the proprietor; or

For a municipality, state, Federal, or other public facility: by either a principal executive officer or ranking elected official.

POLLUTION PREVENTION PLAN A storm water pollution prevention plan (SWP3) is required to be in hand before the NOI can be submitted. It is important to know SWPPP requirements (contained in the permit) even during the design portion of the project. A copy of the permit can be obtained from the Division of Water Quality’s storm water construction web site. Guidance material for developing a SWPPP can be obtained from the Division of Water Quality’s storm water construction web site.
