RE: Engineer Review for M&M Storage 4-22-2013

Dear Chad:

The following items address your concerns for your engineering review dated 4-22-13:

There is an existing storm drainage system which will now tie into the Pleasant View line as shown on the Overall Utility Plan. Detention/retention does not exist on this site.

No new construction of buildings – access/easements for North View Holding/Pleasant View City are only proposed.

A SWPPP has been prepared for the Professional Building to the south, which encompasses the development (i.e. access drive and sewer/storm drain connection to service North View Holdings) in the M&M Storage Site. No new construction is proposed to service the M&M Storage Site.

Please let us know of any other concerns you may have regarding this project:

Sincerely,

Chris w Thurgood  
on behalf of Paul Mackley
