Weber County Planning Commission
2380 Washington Blvd.
Ogden, Utah 84401-1473

Reference: Tyler Cazier 2-Lot Subdivision
1223 South 4100 West
Sanitary Sewer Will Serve Letter

Weber County Planning Commission:

We have been asked review the possibility of providing sanitary sewer service for the proposed Tyler Cazier 2-Lot Subdivision. This property is more or less described as a One Acre Parcel location at 1223 South 4100 West in Weber County. Central Weber Sewer Improvement District can accept and treat the sanitary sewer discharge from this location. The following information and conditions must be met prior to any connections being made to the District's sanitary sewer line.

1. The nearest sanitary sewer line owned by Central Weber Sewer Improvement District is located on 4100 W.
2. If any sanitary sewer connections are made to the District's lines they will need to be designed, constructed and inspected in according to the District's standard details and specifications. A copy of the District's details and specifications can be found at: <https://www.centralweber.com/information>.
3. The plans and details for any sanitary sewer connection into the District's collection system must be submitted to the District for review and approval. The District does not take the responsibility for the design of the collection system for the subdivision.
4. Prior to any connection being made to Central Weber's sanitary sewer line Central Weber must be notified at least 48 hours in advance in order to be onsite during construction of the connection for inspection purposes.
5. The District will not take ownership nor responsibility for ongoing maintenance and operation of the collection system between the subdivision and the District's sewer line.

6. The District must be notified for inspection at any time connections are being made to the District's sanitary sewer lines. The District will NOT install, own and/or maintain any of the sanitary sewer lines being extended to serve this property.
7. The connection of any land drains, surface drains or sump pumps (or similar type pumps) to the sanitary sewer system is prohibited during or after construction. Central Weber's Wastewater Control Rules and Regulations state:

Prohibited Discharge into Sanitary Sewer. No person shall discharge or cause or make a connection which would allow to be discharged any storm water, surface water, groundwater, roof water runoff or subsurface drainage to any sanitary sewer.

8. Impact Fees for each residential lot must be paid prior to or at the time a building permit is obtained.

If you have further questions or need additional information please do not hesitate to contact us.

Sincerely,

CENTRAL WEBER SEWER IMPROVEMENT DISTRICT

Lance L. Wood, P. E.
General Manager
