Property Information

Project Name AT&T cellular facility Powder mountain	Total Acreage	Current Zoning
Approximate Address Sky Lodge at the top of PM ski resort	Land Serial Number(s) 23-012-0054	

Proposed Use
Construction of a cellular facility at the top of the Powder mountain ski resort

Project Narrative

AT&T is proposing to construct 60 cell tower near the existing lodge at the powder mountain ski resort. In addition the will need to construct a shelter immediately adjacent to the tower for their radio equipment.

Basis for Issuance of Conditional Use Permit

Reasonably anticipated detrimental effects of a proposed conditional use can be substantially mitigated by the proposal or by the imposition of reasonable conditions to achieve compliance with applicable standards. Examples of potential negative impacts are odor, vibration, light, dust, smoke, or noise.

In the case of cellular facility there are no impacts from odor, vibration, light, dust, smoke or noise. The only impact is that of height. There is no real way to mitigate height other than to construct the tower at lowest possible height while still achieving the coverage for which the site is being constructed. This has been done in this instance.

That the proposed use will comply with the regulations and conditions specified in the Zoning Ordinance and other applicable agency standards for such use.

AT&T will comply with all conditions required by the Weber County zoning ordinance and all other applicable agencies.

Property Owner Affidavit
