

RaceDay Event Management permit's its entire events thru USA Cycling, which is the National Governing Body for cycling as recognized by the USA Olympic Organization.

When we permit an event (Utah Hill Climb Series-Snowbasin) we must go thru a permit process that requires that we agree to a list of permit requirements and agree to meet those requirements. Currently we must also reaffirm that we have meet those requirement one week prior to the event being held. Part of those requirements to maintain the insurance is that we have secured the appropriate special event permits form any and all agency's that hold control over the course (road) that is being used.

During that permit process we are allowed and pay to have any agencies to the insurance binder as additionally insured (Certificate Holder) that requires such insurance. RaceDay Event Management is an named insured of that policy.

RaceDay Event Management, by completing the requirements to obtain a Special Event Permit from Weber County has enter entered into an Agreement (Contract) to meet or exceed to requirements as outline during the event permitting process.

This is what the statement on printed in the Certificate of Liability Insurance as noted in the Description of Operations /Locations/Vehicles of Job 2021-3192(Permit)

So in short RaceDay Event management has entered into a contract when we complete and pay for the Special Event Permit from Weber County.

If you have any questions please feel free to reach out Ciao! Dirk
