dig-it@ovally.net

SWPPP Preparation Date:

9/26/2012

Estimated Project Dates:

Project Start Date: 03/25/2013
Project Completion Date: 03/25/2014

Contents

SECTION 1: SITE EVALUATION, ASSESSMENT, AND PLANNING CERTIFICATION, AND SIGNATURE	1
1.1 Project/Site Information.....	1
1.2 Contact Information/Responsible Parties	2
1.3 Nature and Sequence of Construction Activity	3
1.4 Soils, Slopes, Vegetation, and Current Drainage Patterns.....	3
1.5 Construction Site Estimates	3
1.6 Receiving Waters.....	4
1.7 Site Features and Sensitive Areas to be Protected	4
1.8 Potential Sources of Pollution.....	4
1.9 Endangered Species Certification.....	5
1.10 Historic Preservation.....	6
1.11 Applicable Federal, Tribal, State or Local Programs	6
1.12 Maps.....	6
SECTION 2: EROSION AND SEDIMENT CONTROL BMPs.....	7
2.1 Minimize Disturbed Area and Protect Natural Features and Soil.....	7
2.2 Phase Construction Activity	7
2.3 Control Stormwater Flowing onto and through the Project.....	7
2.4 Stabilize Soils.....	8
2.5 Protect Slopes.....	8
2.6 Protect Storm Drain Inlets	9
2.7 Establish Perimeter Controls and Sediment Barriers.....	9
2.8 Retain Sediment On-Site.....	10
2.9 Establish Stabilized Construction Exits	10
SECTION 3: GOOD HOUSEKEEPING BMPs	11
3.1 Material Handling and Waste Management	11
3.2 Establish Proper Building Material Staging Areas	11
3.3 Designate Washout Areas	11
3.4 Establish Proper Equipment/Vehicle Fueling and Maintenance Practices	12
3.5 Control Equipment/Vehicle Washing.....	12
3.6 Spill Prevention and Control Plan.....	12
3.8 Allowable Non-Stormwater Discharge Management.....	13
SECTION 4: SELECTING POST-CONSTRUCTION BMPs.....	14
SECTION 5: INSPECTIONS	15
5.1 Inspections	15
5.2 Delegation of Authority	16
5.3 Corrective Action Log	16
SECTION 6: RECORDKEEPING AND TRAINING	17
6.1 Recordkeeping	17
6.2 Log of Changes to the SWPPP	17
6.3 Training.....	17
SECTION 7: FINAL STABILIZATION.....	18
SECTION 8: CERTIFICATION AND NOTIFICATION.....	19
SWPPP APPENDICES	20
Appendix A – General Location Map	

- Appendix B – Site Maps
- Appendix C – Construction General Permit
- Appendix D – NOI and Acknowledgement Letter from EPA/State
- Appendix E – Inspection Reports
- Appendix F – Corrective Action Log (or in Part 5.3)
- Appendix G – SWPPP Amendment Log (or in Part 6.2)
- Appendix H – Subcontractor Certifications/Agreements
- Appendix I – Grading and Stabilization Activities Log (or in Part 6.1)
- Appendix J – Training Log
- Appendix K – Delegation of Authority
- Appendix L – Additional Information (i.e., Endangered Species and Historic Preservation Documentation; other permits such as dewatering, stream alteration, wetland; and out of date SWPPP documents)
- Appendix M – BMP Specifications

SECTION 1: SITE EVALUATION, ASSESSMENT, AND PLANNING CERTIFICATION, AND SIGNATURE

1.1 Project/Site Information

Project/Site Name: The Eden Center

Project Street/Location: 2612 North Highway 162

City: 2612 North Highway 162 State: Utah ZIP Code: 84310

County or Similar Subdivision: Weber County

Latitude/Longitude (Use **one** of three possible formats, and specify method)

Latitude:

1. 41° 18' 22" N (degrees, minutes, seconds)

2. ___ ° ___ . ___ ' N (degrees, minutes, decimal)

3. ___ . _____ ° N (decimal)

Longitude:

1. 111° 49' 42" W (degrees, minutes, seconds)

2. ___ ° ___ . ___ ' W (degrees, minutes, decimal)

3. ___ . _____ ° W (decimal)

Method for determining latitude/longitude:

USGS topographic map (specify scale: _____)

EPA Web site GPS

Other (please specify): Google Earth

Is the project located in Indian country? Yes No

If yes, name of Reservation, or if not part of a Reservation, indicate "not applicable." _____

Is this project considered a federal facility? Yes No

UPDES project or permit tracking number*: _____

**(This is the unique identifying number assigned to your project by your permitting authority after you have applied for coverage under the appropriate National Pollutant Discharge Elimination System (UPDES) construction general permit.)*

1.2 Contact Information/Responsible Parties

Operator(s):

Dig-It, INC
Pat Brennen
4829 East Patio Springs Clr
Eden, UT 84310
(801) 430-7217
dig-it@ovally.net

Eden, UT 84310
(801) 430-7217

This SWPPP was Prepared by:

Gardner Engineering:
Tyler Nielson
5875 South Adams Avenue
Ogden, Utah 8445
(801) 476-0202
Tyler@gardnerengineering.net

Subcontractor(s):

Emergency 24-Hour Contact:

Dig-It, INC
Pat Brennen
4829 East Patio Springs Clr
Eden, UT 84310
(801) 430-7217

1.3 Nature and Sequence of Construction Activity

Describe the general scope of the work for the project, major phases of construction, etc:

A commercial development that includes eight individual 'cabin' condominiums. The scope of work will include installation of: the condos, an open air gazebo, a parking lot and the utilities: water, sewer, storm drain, etc.

What is the function of the construction activity?

Residential Commercial Industrial Road Construction Linear Utility
 Other (please specify):

Estimated Project Start Date: ___/___/_____

Estimated Project Completion Date: ___/___/_____

1.4 Soils, Slopes, Vegetation, and Current Drainage Patterns

Soil type(s):

Slopes (describe current slopes and note any changes due to grading or fill activities):

Slopes are minimal -1% to 2%; there are a couple mounds of stockpiled material. Finished grade will be 0.50% to 3.00%

Drainage Patterns:

Due to the flat terrain, water generally pools then either infiltrates or makes it way to the south west of the lot towards an existing drainage swale

Vegetation: There are currently native grasses throughout the site; the proposed landscape will include sod and various bushes & trees

Other:

1.5 Construction Site Estimates

The following are estimates of the construction site.

Total project area:	0.89 acres
Construction site area to be disturbed:	0.89 acres
Percentage impervious area before construction:	0.0%
Runoff coefficient before construction:	0.10
Percentage impervious area after construction:	60.7%
Runoff coefficient after construction	0.56

Description of unique features that are to be preserved: None applicable

Describe measures to protect these features: Not applicable

1.6 Receiving Waters

Description of receiving waters: Pineview Reservoir in the Ogden River watershed

Description of storm sewer systems: Two drain boxes and the proposed topography collect water and feed to a detention pond. The water is detained and released to an existing drainage swale along SR-162. The drainage swale feeds into a public storm drain system that discharges into Pineview Reservoir.

Description of impaired waters or waters subject to TMDLs: Pineview Reservoir has an impaired status associated with Temperature as of 2006, according to the EPA.

(http://ofmpub.epa.gov/tmdl_waters10/attains_waterbody.control?p_au_id=UT-L-16020102-014_00&p_cycle=2006&p_state=UT&p_report_type=) The storm water from the project location is unlikely to affect the reservoir for two reasons: heat is not being transferred to the water by an industrial or commercial practice; the storm water volume is small, comparatively.

Other:

1.7 Site Features and Sensitive Areas to be Protected

NONE

1.8 Potential Sources of Pollution

Potential sources of sediment to stormwater runoff:

Runoff during construction from material stockpiles and disturbed and stripped soils

Potential pollutants and sources, other than sediment, to stormwater runoff:

Oils and fuels from construction equipment

Trade Name Material	Stormwater Pollutants	Location

1.9 Endangered Species Certification

Are endangered or threatened species and critical habitats on or near the project area?

Yes No

Describe how this determination was made:

<http://www.fws.gov/endangered/index.html>

If yes, describe the species and/or critical habitat:

If yes, describe or refer to documentation that determines the likelihood of an impact on identified species and/or habitat and the steps taken to address that impact. (Note, if species are on or near your project site, EPA strongly recommends that the site operator work closely with the appropriate field office of the U.S. Fish and Wildlife Service or National Marine Fisheries Service. For concerns related to state or tribal listing of species, please contact a state or tribal official.)

1.10 Historic Preservation

Are there any historic sites on or near the construction site?

Yes No

Describe how this determination was made:

<http://www.nationalregisterofhistoricplaces.com/ut/Weber/state.html>

If yes, describe or refer to documentation that determines the likelihood of an impact on this historic site and the steps taken to address that impact.

1.11 Applicable Federal, Tribal, State or Local Programs

NA

1.12 Maps

Include the site maps with the SWPPP.

SECTION 2: EROSION AND SEDIMENT CONTROL BMPS

2.1 *Minimize Disturbed Area and Protect Natural Features and Soil*

2.2 *Phase Construction Activity*

- Phase I
 - Construction Phase – Clearing & Grubbing, Utility Installation, Finish Grading, Installation of appurtenant improvements
 - 1 month duration
 - Silt fence, Inlet protection, minimize disturbance

- Phase II
 - Post Construction Phase
 - 2 month duration
 - Re-establish vegetation. Sod and Grade area.

2.3 *Control Stormwater Flowing onto and through the Project*

<i>BMP Description:</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	
<i>BMP Description:</i>

BMP Description:	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

2.6 Protect Storm Drain Inlets

BMP Description: Rock filled bags at inlet of pipe ends

<i>Installation Schedule:</i>	Before construction begins
<i>Maintenance and Inspection:</i>	Daily and after each storm event
<i>Responsible Staff:</i>	Dig-It, INC

BMP Description: Silt Fence

<i>Installation Schedule:</i>	Before Construction begins
<i>Maintenance and Inspection:</i>	Weekly or following a storm event
<i>Responsible Staff:</i>	Dig-It, INC

BMP Description: Tracking Pad

<i>Installation Schedule:</i>	Before Construction begins
<i>Maintenance and Inspection:</i>	Weekly or following a storm event
<i>Responsible Staff:</i>	Dig-It, INC

BMP Description: Concrete Washout

<i>Installation Schedule:</i>	Before Installation of concrete
<i>Maintenance and Inspection:</i>	Weekly or following a storm event
<i>Responsible Staff:</i>	Dig-It, INC

2.7 Establish Perimeter Controls and Sediment Barriers

BMP Description: Silt Fence

<i>Installation Schedule:</i>	Prior to beginning construction
<i>Maintenance and Inspection:</i>	Weekly and following any storm event
<i>Responsible Staff:</i>	Dig-It, INC

2.8 Retain Sediment On-Site

BMP Description: Check Dam

<i>Installation Schedule:</i>	Once Construction Begins
<i>Maintenance and Inspection:</i>	Daily
<i>Responsible Staff:</i>	Dig-It, INC

2.9 Establish Stabilized Construction Exits

BMP Description: Tracking Pad

<i>Installation Schedule:</i>	Prior to construction
<i>Maintenance and Inspection:</i>	Weekly
<i>Responsible Staff:</i>	Dig-It, INC

SECTION 3: GOOD HOUSEKEEPING BMPS

3.1 Material Handling and Waste Management

<i>BMP Description: Remove and Dispose of garbage and construction waste</i>	
<i>Installation Schedule:</i>	Once construction begins
<i>Maintenance and Inspection:</i>	Daily
<i>Responsible Staff:</i>	Dig-It, INC
<i>BMP Description:</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

3.2 Establish Proper Building Material Staging Areas

<i>BMP Description</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	
<i>BMP Description:</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

3.3 Designate Washout Areas

BMP Description: Concrete Washout

<i>Installation Schedule:</i>	Prior to pouring of concrete
<i>Maintenance and Inspection:</i>	Weekly
<i>Responsible Staff:</i>	Dig-It, INC

3.4 Establish Proper Equipment/Vehicle Fueling and Maintenance Practices

BMP Description: Spill Kits

<i>Installation Schedule:</i>	Have them available if a spill should occur
<i>Maintenance and Inspection:</i>	Weekly
<i>Responsible Staff:</i>	Dig-It, INC

BMP Description: Fuel and maintain in areas away from inlets

<i>Installation Schedule:</i>	Beginning of project
<i>Maintenance and Inspection:</i>	Daily
<i>Responsible Staff:</i>	Dig-It, INC

3.5 Control Equipment/Vehicle Washing

BMP Description: NO Washing of construction Vehicles allowed.

<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

3.6 Spill Prevention and Control Plan

3.8 Allowable Non-Stormwater Discharge Management

List allowable non-stormwater discharges and the measures used to eliminate or reduce them and to prevent them from becoming contaminated:

<i>BMP Description: Dust Control</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

<i>BMP Description: Line Flushing Water</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

SECTION 4: SELECTING POST-CONSTRUCTION BMPs

BMP Description:

<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

BMP Description:

<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

SECTION 5: INSPECTIONS

5.1 *Inspections*

1. ***Inspection Personnel:*** Identify the person(s) who will be responsible for conducting inspections and describe their qualifications:

2. ***Inspection Schedule and Procedures:***

Describe the inspection schedules and procedures you have developed for your site (include frequency of inspections for each BMP or group of BMPs, indicate when you will inspect, e.g., before/during/and after rain events, spot inspections):

Describe the general procedures for correcting problems when they are identified. Include responsible staff and time frames for making corrections:

Attach a copy of the inspection report you will use for your site.

5.2 Delegation of Authority

Duly Authorized Representative(s) or Position(s):

Insert Company or Organization Name: Dig-It, INC

Insert Name: Pat Brennen

Insert Position: Owner

Insert Address: 4829 East Patio Springs Clr

Insert City, State, Zip Code: Eden, UT 84310

Insert Telephone Number: (801) 430-7217

Insert Fax/Email: dig-it@ovally.net

Attach a copy of the signed delegation of authority form in Appendix K.

5.3 Corrective Action Log

Corrective Action Log:

SECTION 6: RECORDKEEPING AND TRAINING

6.1 Recordkeeping

Records will be retained for a minimum period of at least 3 years after the permit is terminated.

Date(s) when major grading activities occur:

Date(s) when construction activities temporarily or permanently cease on a portion of the site:

Date(s) when an area is either temporarily or permanently stabilized:

6.2 Log of Changes to the SWPPP

Log of changes and updates to the SWPPP

6.3 Training

Individual(s) Responsible for Training:

Describe Training Conducted:

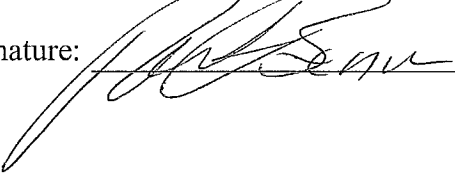

- General stormwater and BMP awareness training for staff and subcontractors:
- Detailed training for staff and subcontractors with specific stormwater responsibilities:

SECTION 7: FINAL STABILIZATION

<i>BMP Description:</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	
<i>BMP Description:</i>	
<i>Installation Schedule:</i>	
<i>Maintenance and Inspection:</i>	
<i>Responsible Staff:</i>	

SECTION 8: CERTIFICATION AND NOTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Name: Pat Brennan Title: President
Signature:  Date: 3-20-2013

SWPPP APPENDICES

Attach the following documentation to the SWPPP:

Appendix A – General Location Map

Appendix B – Site Maps

Appendix C – Construction General Permit

Appendix D – NOI and Acknowledgement Letter from EPA/State/MS4

Appendix E – Inspection Reports

Appendix F – Corrective Action Log (or in Part 5.3)

SUBCONTRACTOR CERTIFICATION STORMWATER POLLUTION PREVENTION PLAN

Project Number: _____

Project Title: _____

Operator(s): _____

As a subcontractor, you are required to comply with the Stormwater Pollution Prevention Plan (SWPPP) for any work that you perform on-site. Any person or group who violates any condition of the SWPPP may be subject to substantial penalties or loss of contract. You are encouraged to advise each of your employees working on this project of the requirements of the SWPPP. A copy of the SWPPP is available for your review at the office trailer.

Each subcontractor engaged in activities at the construction site that could impact stormwater must be identified and sign the following certification statement:

I certify under the penalty of law that I have read and understand the terms and conditions of the SWPPP for the above designated project and agree to follow the BMPs and practices described in the SWPPP.

This certification is hereby signed in reference to the above named project:

Company: _____

Address: _____

Telephone Number: _____

Type of construction service to be provided: _____

Signature: _____

Title: _____

Date: _____

Appendix K – Delegation of Authority Form

Delegation of Authority

I, _____ (name), hereby designate the person or specifically described position below to be a duly authorized representative for the purpose of overseeing compliance with environmental requirements, including the Construction General Permit, at the _____ construction site. The designee is authorized to sign any reports, stormwater pollution prevention plans and all other documents required by the permit.

_____ (name of person or position)
_____ (company)
_____ (address)
_____ (city, state, zip)
_____ (phone)

By signing this authorization, I confirm that I meet the requirements to make such a designation as set forth in _____ (Reference State Permit), and that the designee above meets the definition of a “duly authorized representative” as set forth in _____ (Reference State Permit).

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

INSTRUCTIONS

Notice Of Intent (NOI) For Permit Coverage Under the UPDES General Permit For Storm Water Discharges From Construction Activities

Who Must File A Notice Of Intent (NOI) Form State law at UAC R317-8-3.9 prohibits point source discharges of storm water from construction activities to a water body(ies) of the State without a Utah Pollutant Discharge Elimination System (UPDES) permit. The operator of a construction activity that has such a storm water discharge must submit a NOI to obtain coverage under the UPDES Storm Water General Permit. If you have questions about whether you need a permit under the UPDES Storm Water program, or if you need information as to whether a particular program is administered by EPA or a state agency, contact the storm water coordinator at (801) 536-4300.

Where To File NOI Form NOIs, with fee payment(s), must be sent to the following address:

Department of Environmental Quality
Division of Water Quality
P.O. Box 144870
Salt Lake City, UT 84114-4870

(The NOI can also be completed on line at:
<http://www.waterquality.utah.gov/UPDES/stormwatercon.htm>)

Beginning of Coverage Storm Water General Permits are issued immediately after submitting an NOI with the permit fee. The permittee should be aware that though you may not have a permit in hand, if you have submitted a completed NOI with the permit fee you are covered by the conditions in the permit and will be expected to comply with permit conditions. If you wish, contact the Division of Water Quality at (801) 536-4300 to receive a copy of the permit or you can print a copy from the DWQ web site.

Permit Fees (MAKE CHECKS PAYABLE TO: DIVISION OF WATER QUALITY) The permit fee is \$110.00 per year. This fee is prorated on a yearly basis. For example if construction is scheduled for one year and one day the fee would be \$220.00 because construction went into a second year. The minimum fee is \$110.00 which gives one year of coverage. The fee must be received with the NOI before permit coverage is activated.

Length of Coverage: Construction Storm Water Permits start on the day that the NOI and fee payment is received at DWQ (on line if that is the case) and expire on the date that the fee is paid up to. The minimum fee is \$110, therefore all permits where the minimum fee is paid will automatically receive coverage for one year. When a project is completed and the permittee wishes to discontinue permit coverage, wants to be released from accountability for permit conditions, and has stabilized the site according to permit requirements the permittee must submit the a notice of termination (NOT). The site must be clean and all temporary storm water control measures must be removed. In most cases the DWQ or municipal (for the municipality of jurisdiction) storm water coordinator will perform a final inspection. If the site passes the final inspection the permit is terminated.

The Storm Water General Permit for Construction Activities UTR300000 will expire on June 30, 2013. The Clean Water Act requires that all UPDES permits be renewed every 5 years. If a project extends beyond the expiration date of the Permit it must continue coverage under the renewed permit that will subsequently be developed to continue the same or similar permit service for construction activity.

SECTION I - FACILITY OPERATOR INFORMATION Give the legal name(s) of the person(s), firm(s), public organization(s), or any other entity(ies) that conducts the construction operation at the facility or site described in this application. The name of the operator(s) may be the developer, the owner, the general contractor, the design firm, the excavation contractor and/or others (e.g. anyone that fits the definition of operator). Most often it is the general contractor. An operator is anyone that has control over site/project specifications and/or control of day to day operational activities. Do not use a colloquial name.

Enter the complete address and telephone number of the operator(s). Enter the appropriate letter to indicate the legal status of the operator of the facility.

F = Federal M = Public (other than Fed or State) S = State P = Private

SECTION II - FACILITY/SITE LOCATION INFORMATION Enter the facility name or legal name and project number (if any) of the site and complete street address, including city, state and ZIP code. The latitude and longitude of the facility must be included to the approximate centroid of the site, and the method of how the Lat/Long was obtained (USGS maps, GPS, Internet Map sites [such as Google Earth], other). The township and range is desirable but not necessary.

Indicate whether the facility is located in Indian Country. If the facility is located in Indian Country, do not complete this NOI, instead complete form 3510-6 and submit to EPA Region VIII except for facilities on the Navajo Reservation or on the Goshute Reservation which should submit EPA form 3510-6 to Region IX.

SECTION III - SITE ACTIVITY INFORMATION If the storm water discharges to a municipal separate storm sewer system (MS4), enter the name of the operator of the MS4 (e.g., municipality name, county name) and the receiving water of the discharge from the MS4 if it is known (if it is not known please estimate or guess and indicate so). (An MS4 is defined as a conveyance or system of conveyances (including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, man-made channels, or storm drains) that is owned or operated by a state, city, town, county, district, association or other public body which is designed or used for collecting or conveying storm water).

SECTION IV - TYPE OF CONSTRUCTION Check each type of construction that applies to this application.

SECTION V - BEST MANAGEMENT PRACTICES Check each type of best management practice that will be used to control storm water runoff at the job site.

SECTION VI - ADDITIONAL Provide an estimate of the total number of acres of the site on which soil will be disturbed (round to the nearest acre). Indicate whether the storm water pollution prevention plan for the site is in compliance with approved state and/or local sediment and erosion plans, permits, or storm water management plans. An email address is required of the best contact associated with the project for the communication needs of DWQ.

SECTION VII - CERTIFICATION State statutes provide for severe penalties for submitting false information on this application form. State regulations require this application to be signed as follows:

For a corporation: by a responsible corporate officer, which means: (i) president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision making functions, or (ii) the manager of one or more manufacturing, production, or operating facilities employing more than 250 persons or having gross annual sales or expenditures exceeding \$25 million (in second quarter 1980 dollars), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures;

For a partnership or sole proprietorship: by a general partner or the proprietor, or

For a municipality, state, Federal, or other public facility: by either a principal executive officer or ranking elected official.

POLLUTION PREVENTION PLAN A storm water pollution prevention plan (SWP3) is required to be in hand before the NOI can be submitted. It is important to know SWP3 requirements (contained in the permit) even during the design portion of the project. A copy of the permit can be obtained from the Division of Water Quality's storm water construction web site. Guidance material for developing a SWP3 can be obtained from EPA (NTIS) or from the Division of Water Quality's storm water construction web site.

III. SITE ACTIVITY INFORMATION

Municipal Separate Storm Sewer System (MS4) Operator Name: weber county

Receiving Water Body: pineviwe resivor known

How far to the nearest water body? 2 miles miles

List the Number of any other UPDES permits at the site:

IV. TYPE OF CONSTRUCTION (Check all that apply)

- 1. Residential
- 2. Commercial
- 3. Industrial
- 4. Road
- 5. Bridge
- 6. Utility
- 7. Contouring, Landscaping
- 8. Other (Please list)

V. BEST MANAGEMENT PRACTICES

Identify proposed Best Management Practices (BMPs) to reduce pollutants in storm water discharges: (Check all that apply)

- 1. Silt Fences
- 2. Sediment Pond
- 3. Seeding/Preservation of Vegetation
- 4. Mulching/Geotextiles
- 5. Check Dams
- 6. Structural Controls (Berms, Ditches, etc.)
- 7. Other (Please list)

VI. ADDITIONAL INFORMATION REQUIRED

Estimated Area to be Disturbed (in Acres): 1

Total Acreage: 1

A storm water pollution prevention plan has been prepared for this site and is to the best of my knowledge in Compliance with State and/or Local Sediment and Erosion Plans and Requirements. Y (Y or N)
(A pollution prevention plan is required to be on hand before submittal of the NOI.)

Enter the best e-mail address for contacting the permittee: dig-it@ovalley.net

VII. CERTIFICATION: I certify under penalty of law that I have read and understand the *Part 1* eligibility requirements for coverage under the general permit for storm water discharges from construction activities. I further certify that to the best of my knowledge, all discharges and BMPs that have been scheduled and detailed in a pollution prevention plan will satisfy requirements of *Part 1*, and *Part 3* of this permit. I understand that continued coverage under this storm water general permit is contingent upon maintaining eligibility as provided for in *Part 1*.

I also certify under penalty of law that this document and all attachments were prepared under the direction or supervision of those who have placed their signature below, in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Attn: DAQ, Fugitive Dust Control Plan

Fugitive Dust Control Plan Application

Applicants have the option to complete the online dust control plan on the DEQ Online Services webpage or to submit a hard copy application.

Activities regulated by R307-309 may not commence before obtaining approval of the fugitive dust control plan. Therefore, online filing is encouraged because it provides instant approval.

Blank spaces must be completed for the application to be processed. If not applicable, enter N/A.

5. By signing this permit application I certify that:

A. I am authorized, on behalf of the individual or company listed in Section 1, as Applicant, to apply for a Fugitive Dust Control Plan and to commit to all of the terms and conditions of the requested plan.

B. Construction activities will be limited to lands that the applicant either owns or is authorized to use for construction activities.

C. The applicant accepts responsibility for assuring that all contractors, subcontractors, and all other persons on the construction site covered by this plan, comply with the terms and conditions of the Fugitive Dust Control Plan.

D. I understand that any false material statement, representation or certification made in this application may invalidate the plan or cause me to be subject to enforcement action pursuant to Utah Code Ann. 19-2-115.

E. Failure to comply with fugitive dust rules may result in compliance action and penalties up to \$10,000 per violation/day.
