A M E N D M E N T

Sec 104-20-1 Purpose And Intent

- (a) The purpose of the ~~C-1 Neighborhood Commercial, C-2 Community Commercial, and C-3 Regional Commercial Zones~~ commercial zones is to provide suitable areas for the location of the various types of commercial activity needed to serve the people and commerce of unincorporated Weber County. It is also to separate into three zones uses, based upon type of activity which are compatible and complementary, as well as intensity of land utilization and accessory use needs.
- (b) The C-1 Zone (Western Weber Planning Area Neighborhood Commercial Zone) and the CV-1 Zone (Ogden Valley Planning Area Neighborhood Commercial Zone) is established for the purpose of providing shopping facilities and services within neighborhoods that are more likely to be primarily patronized by those in the surrounding neighborhood. Commercial uses that are primarily patronized by those outside the surrounding neighborhood are less suitable for this zone.
- (c) The C-2 Zone (Western Weber Planning Area Community Commercial Zone) and the CV-2 Zone (Ogden Valley Planning Area Community Commercial Zone) is established for the purpose of providing a broad range of commercial services and goods to serve a larger community area. These areas are intended to be clustered around traditional town or village centers and not strung out along the highways.
- (d) The C-3 Zone (Regional Commercial Zone) is established for the purpose of providing commercial goods and services that are more likely to be patronized by those in the surrounding region.

g. Comply with the architectural design theme specified in the respective general plan.

- (2) If located in a separate onsite building than the building providing first-story street-facing commercial space specified in Subsection (g)(1) herein, the separate building shall be located behind the building with first-story street-level commercial space, and shall be no wider than the building providing first-story street-level commercial space. The building shall be designed by a licensed architect to have similar architectural features as the building providing first-story street-level commercial space.
- (3) Storage unit bay doors or garage doors shall face away and not be visible from the nearest property line, and shall be completely obscured from view from any public right-of-way; except a bay or garage door may face a public right-of-way if the door is constructed of 80 percent window area and designed to appear as fenestration for first-story street-facing commercial space.
- (4) The lot's street frontage shall be developed as a complete street, as specified in Section 104-21-4(c).
- (5) Exemption: The requirements of this Subsection (g) shall be waived if:
- a. The lot or parcel has no street frontage;
  - b. No street is planned that would give the lot or parcel frontage, as shown on any street plan or similar document adopted by the County; and
  - c. The parcel is surrounded on all sides by a zone that allows first-story street-facing commercial space, or is shown on a general plan, area plan, or other similar document adopted by the County to become surrounded on all sides by a zone that allows first-story street-facing commercial space.

**SECTION 9: AMENDMENT** “Sec 104-21-1 Purpose And Intent” of the Weber County County Code is hereby *amended* as follows:

AMENDMENT

Sec 104-21-1 Purpose And Intent

(a) ~~The purpose of the CV-1 and CV-2 zones is to provide suitable areas for the location of the various types of commercial activity needed to serve the people and commerce of the Ogden Valley in unincorporated Weber County. It is also to separate, into two commercial zones, uses based upon the type of activity which are compatible and complementary, as well as the intensity of land utilization and accessory use needs. The CV-1 Zone (Neighborhood Commercial) has been established for the purpose of providing shopping facilities and services within neighborhoods in the Ogden Valley, primarily for the convenience of people living in a neighborhood. The types of goods and services which may be offered for sale have been limited to "convenience goods" such as groceries, drugs, and personal services such as a barber and beauty shop, distinguished by the fact that the principal patronage of the establishments originates within the surrounding neighborhood. Consequently, other uses such as automobile sales, furniture, and other stores, in which the principal patronage originates outside the surrounding neighborhood, have been excluded from the CV-1 zone. The maximum size of a CV-1 zone node shall be approximately five (5) acres exclusive of minimum lot widths and areas. The CV-2 Zone (General Commercial) has been established for the purpose of providing a broad range of commercial services and goods to serve a larger region of the county like the Ogden Valley. Areas with CV-2 zoning have a principal patronage which originates throughout the Ogden Valley or is due to recreation in the Ogden Valley. CV-2 areas are to be a commercial hub or node of activity. These areas, as outlined in the General Plan, are to be near the traditional town centers of the Ogden Valley and not to be strung out along the highways. Uses in the CV-2 Zone may provide goods and services not typically found amongst commercial areas within resorts including automobile sales and service, sporting goods, service stations, hotels, and professional offices.~~

The off-street vehicle spaces or queues required shall be as follows: For portions of a lot's frontage in the CV-1 or CV-2 zone where a complete street is not required by this Subsection (c)(1), a 10-foot wide sidewalk is required, as prescribed by the Planning Director after consultation with the County Engineer. *Complete street.* A complete street, as defined in Section 101-1-7, shall be installed to span the street frontage of the lot for the width of existing or proposed completed improvements, including parking facilities and required landscaped area. If this width is 75 percent of the lot width or greater, the complete street shall span the entire street frontage of the lot in the CV-1 or CV-2 zone. A complete street design shall include a ten-foot pedestrian pathway or

sidewalk, pedestrian lighting, shade trees, appropriate clear view of intersection, and shall also include safe street crossings for pedestrians in no greater than 300-foot intervals. As such, at a minimum, each developed lot or parcel shall have two points of ingress and egress, at least one of which shall be stubbed to adjacent property where practicable. When locating a cross-access easement or designing the cross-access infrastructure, good faith efforts shall be made to coordinate the location and design with the adjoining land owner.
