Summary and Background

This staff-driven text amendment was initiated following the submittal of a conditional use permit for a “Conference Center” on property located within the FV-3 zone. This submitted application, while vested under the existing FV-3 zoning ordinance, raised the question as to whether a conference center is an appropriate use in the FV-3 zone. Staff performed an analysis (see **Attachment B**) of each of the zones in which a conference center is listed as either a permitted or conditional use. This analysis found that the FV-3 and FR-1 zones (both of which list a conference center as a conditional use) are primarily residential in nature and that a conference center may not be an appropriate use.

Summary of Proposed Amendments

§104-13 Forest Residential Zone (FR-1):

- Strike “Conference/Education Center, with five acre minimum lot size” as a conditional use.
- Clarify that “Eductaion Center” is synonymous with “Educational Institution”.
- Apply “with five acre minimum lot size “ to “Education Institution” as was previously applicable to an “Education Center”.

§104-14 Forest Valley Zone (FV-3):

- Strike “Conference/education Center” as a conditional use.

§101-2-6 Definitions:

- Add definition of “Educational Institution” as:

“The term “educational institution” means a place where people of all ages gain an education, including preschools; elementary, middle, and high schools; and institutions of higher education.”

Legislative Decisions

Decision on this item is a legislative action. When the Planning Commission is acting on a legislative item it is acting as a recommending body to the County Commission. Legislative decisions have wide discretion. Examples of legislative actions are general plan, zoning map, and land use code amendments. Typically, the criterion for providing a recommendation on a legislative matter suggests a review for compatibility with the general plan and existing ordinances.

Summary and Background

The County Commission has request consideration of amended language to the zoning ordinances for the F-5, F-10, F-40, CVR-1, FR-1, FV-3, FR-3, & DRR-1 zones to potentially remove the use of "Conference Center" from zones that are primarily residential in nature.

Policy Analysis

The current zoning ordinances for the F-5, F-10, F-40, CVR-1, FR-1, FV-3, and FR-3 zones currently list the use of "Conference Center" as a conditional use. The DRR-1 zone is currently the only zone in which a conference center is listed as a permitted use.

The planning division recently received a conditional use permit application for a conference center in the FV-3 zone which spurred conversation as to whether a conference center is an appropriate use in zones that are primarily intended for residential uses.

Below is listed each of the affected zone's Purpose and Intent statements from their respective ordinances:

§ 104-9 Forest Zones F-5, F-10, and F-40:

- (a) *The intent of the forest zones is to protect and preserve the natural environment of those areas of the county that are characterized by mountainous, forest or naturalistic land, and to permit development compatible to the preservation of these areas.*
- (b) *The objectives in establishing the forest zones are:*
 - (1) *To promote the use of the land for forest, fish and wildlife and to facilitate the conservation of the*

- natural resources, vegetation and attractions;
- (2) To reduce the hazards of flood and fire;
 - (3) To prevent sanitation and pollution problems and protect the watershed;
 - (4) To provide areas for **private and public recreation and recreation resorts**; and
 - (5) To provide areas for homes, summer homes, and summer camp sites.

§ 104-11 Commercial Valley Resort Recreation Zone CVR-1:

- (a) The purpose of this zone is to provide locations in the Ogden Valley and at major recreation resort areas, where **service facilities** and goods normally required by the public in the pursuit of general recreation activities can be obtained.
- (b) In this role, even though the area is **primarily commercial in nature**, it should be compatible with the general surrounding natural environment. To this end, the general siting and architectural design of buildings and structures, the layout of parking areas and landscaping shall be subject to review and recommendations by the public agencies, design review and approval by the planning commission to ensure that the natural environment is preserved to the greatest possible extent.

§ 104-13 Forest Residential Zone FR-1:

The purpose of the forest residential zone is to provide area for **residential development** in a forest setting at a low density, as well as to protect as much as possible the naturalistic environment of the development.

§ 104-14 Forest Valley Zone FV-3:

The purpose of the Forest Valley Zone, FV-3 is to provide area for **residential development** in a forest setting at a low density, as well as to protect as much as possible the naturalistic environment of the development.

§ 104-17 Forest Residential Zone FR-3:

The purpose in establishing the Forest Residential, FR-3 zone is to provide for medium density residential uses of apartment clusters or **condo-tels adjacent to and in conjunction with major recreational resorts**, recreation areas and facilities in the mountain areas of Weber County on the basis that such medium density multiple-family housing is an integral and normal part of a recreational resort complex catering to the needs of both tourists and permanent home ownership. This zone is intended to be used in mountain locations in **areas associated with major recreational resorts**.

§ 104-29 Ogden Valley Destination and Recreation Resort Zone DRR-1:

The purpose of this chapter is to provide flexible development standards to resorts that are dedicated to preserving open space and creating extraordinary recreational resort experiences while promoting the goals and objectives of the Ogden Valley general plan. It is intended to benefit the residents of the county and the resorts through its ability to preserve the valley's rural character, by utilizing a mechanism that allows landowners to voluntarily transfer development rights to areas that are more suitable for growth when compared to sensitive land areas such as wildlife habitats, hazardous hillsides or prime agricultural parcels. Resorts within an approved destination and recreation resort zone shall, by and large, enhance and **diversify quality public recreational opportunities**, contribute to the surrounding community's well-being and overall, instill a sense of stewardship for the land.

Staff's analysis of the zones in which a conference center is either a conditional or permitted use (listed above) has found that both the FR-1 and FV-3 zones are primarily intended for residential uses and may not be appropriate for a conference center use. Additionally, the FR-1 zone is entirely contained to Ogden Canyon where the majority of properties are constrained by narrow rights-of-way and other unique topographical characteristics that are not entirely hospitable to a conference center use.

The other applicable zones F-5, F-10, F-40, CVR-1, FR-3, and DDR-1 are intended to be more commercial or resort oriented and a conference center use may be acceptable as either a conditional use permit (F-5, F-10, F-40, CVR-1, FR-3), or as a permitted use (DDR-1) as is already required under their existing ordinances.

Noticing Compliance

A public hearing for this item before the Planning Commission has been posted for public notice in compliance with UCA §17-27a-205 and UCA §17-27a-502 in the following manners:

Posted on the County's Official Website

Staff Recommendation

Staff recommends that the Planning Commission consider which zones are desirable and appropriate for the conference center use. Staff also recommends that based on the analysis provided, that conference centers be removed as a conditional use from both the FR-1 and the FV-3 zones. Should the planning commission concur, a positive recommendation could be forwarded to the County Commission for file ZTA 2020-08.
