Weber County Surveyor

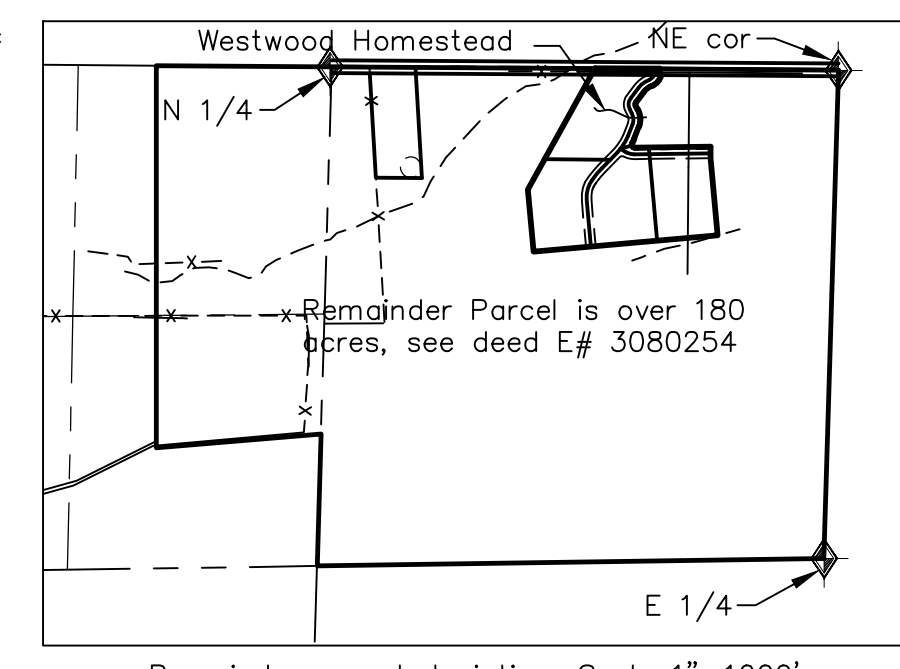

NARRATIVE

- The purpose of this survey is to create a subdivision plat that conforms to the subdivision requirements of Weber County for the zone in which the parcels reside. The zone that is applicable to this subdivision is AV-3.
- Additionally, the purpose of the survey is not to identify utility locations, above or underground, any utilities shown hereon are based on physical survey ties of visible utilities or from 811 Locator Services (Blue Stakes), or from documents of record. No representation as to accuracy of underground utilities is made herein.
- The basis of bearing is as noted and described in the Boundary Description.
- This division is part of an overall parcel which is described in Warranty Deed recorded as Entry Number 3080254 on August 27, 2020. All of the boundary lines, except the north boundary, are original lines of division.
- The north boundary is the section line, which is also the center line of 1900 North Street. The section line as monumented is being held. It should be noted that the North Quarter corner of the section was found by Weber County Survey to have been destroyed when they located the remainents of the monument May 23, 2018. The location noted hereon is based on records of the location which were preserved by Martin B. Moore, Jr. when he was County Surveyor.
- The existing fence line that is shown hereon is not a boundary division fence. The subdivider owns the property on both sides of the line.

NOTES

- This irrigation ditch is controlled by a diversion structure on the north side of 1900 North Street. The water services the remainder parcel as a tail water ditch which is owned by the developer.
- The waterway is shown with a culvert under 7750 East and only has water in times of heavy spring runoff. Any runoff water discharges into the irrigation tail water ditch.
- Agriculture is the preferred use in the agricultural zones. Agricultural operations as specified in the Land Use Code for a particular zone are permitted at any time including the operation of farm machinery and no allowed agricultural use shall be subject to restriction on the basis that it interferes with activities of future residents of this subdivision. [Amd. Ord. Sec. 106-1-8(c)(5)]
- All survey data shown or noted on this survey plat is measured data unless otherwise shown or noted.
- Weber County is requiring that the streets are fully included in the lots of the subdivision. Therefore, Lot 1 extends to the east boundary of the subdivision from the northeast corner southerly to the location of curve C6. At this point the division line between Lot 1 and Lot 3 runs from curve C6 to the center line of the streets at said intersection (the line with the bearing and distance of S 73°03'30" W 62.02') and continues through C32 and the additional 53.52 foot distance along the center line of the street where the boundary of Lot 1 and Lot 2 run westerly. Lot 4 extends to the north boundary of the street.
