Jenn,

Thanks for sending this. This email can act is your road connectivity plan.

Here are my comments regarding the proposed road. The subdivision ordinance requires new street blocks to be created between 500 to 800 feet, so rather than seeing a cul-de-sac, we may want that road to extend to the north. We will look at this in more detail once the application is submitted and provide you with feedback on that within two weeks.

Thanks,

Steve
