

Easement Petition

Parcel owner Hayden Wadsworth located at 5448 west 560 north Warren UT 84404 petitions for an easement vacation on both the north and west parts of the property. After speaking with both the utility companies they are willing to vacate the easement. The Weber County planning department seemed optimistic about the idea of vacating the easement to the north of the property due to decreased risk of flooding since there has been so much dirt brought to the parcels. Being able to place a larger structure and reducing the amount of unused space on my property will increase the value of the parcel and will not cause any undue harm to the county.
