Dana,

The attached plans have addressed the following:

1. The sewer easement has been shown on the plans (Sheets 10-12)
2. Sheet 2 has been included to show the details removed.
3. Sheets 10-12 have been updated to included the redlines you provided with this review.
4. The canal crossing has been shown.
5. The SWPPP has been provided.
6. The canal notes have been updated per our conversations with the canal company. No fencing will be required.

Please if you have any questions, feel free to contact me directly. Thank you for your help.

Thanks,

Shane Taggart
