

Pineae Greenhouses Perennials

- ***Pineae has been growing perennials for over 25 years.***
- ***Pineae is very familiar, and has experience growing varieties that are desirable and hardy in the Rocky Mountain area.***
- ***Pineae has a reputation of growing high quality perennials currently for Nurseries and Independents.***
- ***Pineae is up to date on newest and best varieties for this area and does extensive trialing to determine market suitability.***
- ***Pineae is a perennial licensee of Syngenta, Terra Nova and other perennial breeders so we are able to vertically integrate our production to remain competitive in the market.***

Pineae Goals

- *To be the best and most innovative supplier of live plant material to Lowes in the country*
- *To at least double our total business with Lowes in the next 5 years by increasing sales of annuals and perennials*
- *To be responsible for the management and production of the perennial program in the Rocky Mountain States to help improve the overall performance and profitability of the garden centers*
- *To do the above in a profitable manner to provide long term financial stability for our business, our employees and their families*

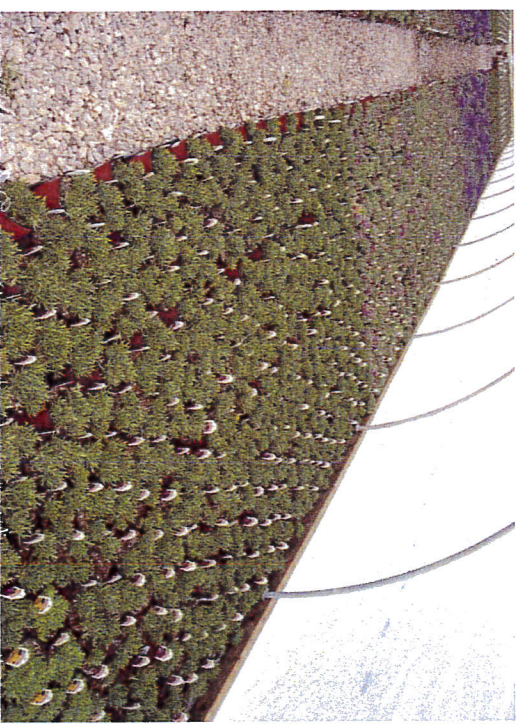

**NEVER STOP
IMPROVING.**
