Proposed Use  
Existing Telecommunication Tower - tower equipment upgrade.

Project Narrative

Sprint is committed to improving coverage areas and expanding network capacity to meet customer demand in the markets they serve. The existing telecommunications tower provides residents, visitors and businesses with improved high quality reliable wireless service for both personal & business, in addition to enhancing emergency services. This application is a request to allow improvements to the existing tower in an effort to eliminate any GAP in Sprint service and to better the network for its customers in the area.

Scope of Work :

Application is for Sprint 2.5. Site is CDMA only. Customer proposes to add: (3) antennas, (3) RRH's, (1) radar filter, (3) power junction cylinders, and (3) optic fiber cylinders. Final Configuration: (6) antennas, (3) coax, (9) RRH's, (1) radar filter (3) power junction cylinders, and (3) optic fiber cylinders NO additional ground space is required. No cabinets to be added. Legacy CDMA equipment must be removed prior to installing 2.5 equipment.

**Basis for Issuance of Conditional Use Permit**

Reasonably anticipated detrimental effects of a proposed conditional use can be substantially mitigated by the proposal or by the imposition of reasonable conditions to achieve compliance with applicable standards. Examples of potential negative impacts are odor, vibration, light, dust, smoke, or noise.

Sprint is proposing to make the following improvements to the existing telecommunications tower, as depicted in the attached Site Plan/Elevations.

The existing tower does not contribute to any increase in vehicular traffic in the area, does not require any water, or solid waste services. There are no negatives to the existence of this tower operating at the current location.

That the proposed use will comply with the regulations and conditions specified in the Zoning Ordinance and other applicable agency standards for such use.

This is a request for amendment to existing CUP with no adverse impacts or changes to the structure. This is an equipment upgrade, replacing existing antennas and associated equipment on the tower. Use remains the same.
