

Application Narrative / Description for Land Use Permit

I am applying for a Land Use Permit to place a storage shed at my residence.

The brand new gambrel-style shed structure is made mostly of wood, with a wood pressure-treated base of skids to set directly on the ground, an 8'x12' size, with an

Structure Elevation overall height of 12.5'.

It will have a natural honeywood stain, water sealed outer finish, and hunter green metal roof. It will be fully assembled (built off-site) and brought in to set on the back and side part of my lot at my direction. There will not be any electricity wired inside nor any windows.

Structure Use

The use is for storing lawn mowers, garden tools, outside patio furniture, camping gear, etc.
