To whom it may concern:

Westside Investments is the owner of property in Weber County in the Hot Springs area (190010005). We have been working with Bona Vista Water Company on the design of a new 3MG water tank on that property. We are currently in negotiations with Bona Vista for the sale of approximately 1.5 acres of land and associated slope easements for that purpose. We intend to sell said property to Bona Vista Water once negotiations and details have been finalized and final approvals have been obtained by all parties.

Sincerely,

Randy Marriott
