**Subject: Plan Review**  
**Parkside PRUD Phase 3**  
**Weber County, Utah**  
**CG Project No.: 133-016**

Mr. Lewis,

At your request, the undersigned engineer reviewed a drawing package for the Parkside PRUD Phase 3 by Gardner Engineering. The drawing package included 10 pages titled Preliminary Review Drawing, Site Plan, Utility Plan, Drainage Plan, Pond Outlet, Offsite Storm Drainage, Plan and Profile (1) Plan and Profile (2), Plan and Profile (3), Standard Details, SWPPP (1), and SWPPP (2). Christensen Geotechnical has completed a geotechnical investigation for Parkside PRUD Phase 3 and 4 with results presented in a geotechnical report dated September 12, 2022. The purpose of our review was to assess whether the recommendations presented in the geotechnical report were followed.

Based on our review, it is our opinion that the drawing package follows the recommendations presented in the project geotechnical report and is suitable for use for the construction of the subdivision. The geotechnical report should be completely read and understood prior to construction. This letter was prepared in accordance with the generally accepted standard of practice at the time this letter was written. No other warranty, expressed or implied, is made.

We appreciate the opportunity of providing our services on this project. If we can answer questions or be of further service, please call.

Sincerely,  
Christensen Geotechnical

Mark I. Christensen, P.E.  
Principal
