David,

To apply for a public utility easement vacation, go to frontier (<https://frontier.co.weber.ut.us/>) and create an account. Then log in and select 'applications' and then 'planning applications' then select 'vacation'. The website will ask for your property info and for your info as the owner. Then you will be prompted to upload a few documents. Upload this email as proof of pre-application meeting. Upload the attached plat that shows the easement you are wanting to vacate. Once you press 'submit' our planning technician will upload the application fee and will mark the application complete once it is paid.

Let me know if you have other questions.

Thanks,

Steve
