Thank you for submitting your design. Your estimate/ quote is below. If you would like to schedule or if you have questions please reply to this email. Prices reflect cash, check, or online payments. Convenience fees apply to payments with cards. Pricing is subject to change based on location, changes and other factors including unforeseen issues onsite.

The information below is an estimate only. Larger sheds or highly-customized buildings may require additional trip charges.

If you would like to schedule with us, you will want to be sure the area is prepared within 6 inches of level with dirt or gravel. If you plan to use concrete as your floor it needs to be perfectly level and same size as the shed footprint otherwise it would be better to have a floor on top of the concrete.

It is the customer's responsibility to check local codes and permit requirements.

Hi Spencer,

We spoke about my shed that got pancaked by the snow up at Sourdough Wilderness Ranch
